### ***FOR IMMEDIATE RELEASE***

Timonium, MD, December 1, 2008 – Enoch Office Equipment of Timonium & Easton, MD, has been named one of the area's fastest growing companies by *Smart CEO* magazine for the second year in a row. The Future 50 award is presented annually by the magazine to 50 of the fastest growing companies in Maryland. The award honors an elite group of companies who know the true meaning of hard work, determination and growth. This year's winners have grown their companies to over 5,500 employees and \$2 billion in revenues.

"The Future 50 program is about celebrating growth, which cannot be done without the help and support of others. Whether it is a parent, business partner, or previous employer, we see the value and impact these individuals have and feel privileged to be part of the celebration of how far these CEOs and their companies have come," says Publisher, Craig Burris.

Enoch Office Equipment was founded in 1961 by the late John J. Enoch. Enoch Office Equipment is a leading technology provider offering multiple product lines from Konica Minolta, Kyocera, Xerox, Panasonic and FP Mailing Solutions. Currently the dealership operates locations in Timonium, MD and Easton, MD.

Joseph Enoch, president of Enoch Office Equipment, stated, "We are very proud to receive an award such as this that recognizes and emphasizes the commitment to constantly improving and expanding our business in this community. We strive to provide the best office equipment solutions and service programs. This is a tribute to our dedicated sales and service staff that work to provide our customers the level of service and support that earned us Future 50 Award for a second consecutive year."

SmartCEO magazine is a regional 'growing company' publication. SmartCEO believes that a "growing company" is really determined by the spirit, drive and dynamics of a company's owners and managers, rather than by the size of its building, the number of its employees, or its sales volume. That's why our focus is on decision makers from many different sized businesses. Each month, a variety of businesses in the greater Washington and greater Baltimore areas turn to our pages for features, case-study advice and trend analysis, all with a uniquely local flavor.

These readers range from younger, dynamic companies to established multi-generational, family-owned firms. Many of our readers are also involved in companies that are emerging or going public. More than 34,000 business owners in Baltimore and Washington read SmartCEO.
