What do we do?

Storr provides a broad range of financial solutions to help you maximize your purchasing power while preserving precious capital. Options include:

- ▶ **Leasing.** Storr offers a wide range of flexible leasing options, so you can choose just the right solution to match your financial strategy. Leases are available for contracts as low as \$5,000, with terms that range from 24 to 60 months. You can even take advantage of 100% financing and cover virtually every aspect of your project—everything from your product order through to delivery and installation.
- ▶ **Furniture rental.** For short-term needs—temporary offices for special projects, special events, special training programs, etc.—rental furniture may be your best workplace option. Whatever the reason, Storr's rental program has the products and the flexibility to meet your needs quickly and cost-effectively.
- ▶ **Furniture buyback programs.** As your company grows and changes, you may decide it's time for a new look within your workspace. Or staff reorganization or restructuring may leave you with unneeded furniture. Take advantage of our furniture buyback program to turn excess furniture into usable capital.

How we do it.

Storr partners with several leading service providers to offer a broad range of alternative financing options. And our buying power as a member of the Steelcase dealer network ensures market-leading rates. Let our financial experts help tailor a program that maximizes your buying power and gives you the kind of workspace that will fully support your business goals.

Why do you need it?

Looking to conserve capital? Avoid budget constraints? Secure additional tax benefits? Protect credit lines? Our financial services program can help you meet all those goals and more with a broad range of flexible options that can easily be tailored to your specific needs.
