***SULTAN HEALTHCARE OFFERS GROOVY LOOK FOR ITS FACE
MASK***

***Attractive Groovy Pattern Helps
Your Patients “Mellow Out” ... It’s Groovy, Baby!***

Sultan Healthcare announces its COM-FIT Groovy Mask offering far out protection, with a “groovy” look

- Highest level of fluid resistance (160 mmHg, per ASTM F1862 Fluid Resistance test) to provide the maximum protection against blood, aerosols and other body fluids.
- Improved breathability over leading fluid resistant masks allows the wearer to be cool and comfortable.
- 99.6% particulate filtration at 0.1 micron and 99% bacterial filtration at 3.0 micron ensure a high level of protection against bacteria, viruses and other microscopic particles.

The Groovy Mask comes in a groovy pattern which allows wearers to show more style than they can with traditional, monochromatic masks.

“Many of us recall the days of plain uniforms for dentists and other professionals,” Tim Lorencovitz, Product Manager. “More varied uniforms are now available, which allows for a greater display of personal taste in the workplace. The Groovy Mask takes this a step further, allowing dental professionals to display their personality, while achieving superior infection control as it provides a soothing color scheme and a less clinical view for the patients.”

For more information on Sultan Healthcare or any of its fine products, contact Sultan Customer Service in their Englewood, New Jersey office at (800) 637-8582, or visit Sultan on the Web at www.sultanhc.com.
