

# INSTAFRESH™ Instant Hand Sanitizer

*Refresh hands in an instant!*

# INSTAFRESH™

# INSTAFRESH™ Instant Hand Sanitizer and TOUCH-LESS™ Sanitizer Dispenser

INSTAFRESH™ Instant Hand Sanitizer refreshes hands quickly without the use of water. Fueled by a 70% ethanol formulation, it provides 99.9% effectiveness in 30 seconds against pathogens such as: Staphylococcus aureus, Salmonella choleraesuis, Pseudomonas aeruginosa, Escherichia coli, Methicillin Resistant Staphylococcus aureus (MRSA), Herpes Simplex Type 1, Influenza A2, HIV-1 (AIDS Virus).

INSTAFRESH™ contains special moisturizers to keep hands soft and clean reducing dryness and cracking. No sticky residue or overpowering fragrance will remain on hands. Its liquid consistency makes it easy to spread and covers the entire hand surface.

Improve hand hygiene compliance with the easy to use TOUCH-LESS™ Sanitizer Dispenser. The unique no touch design reduces the risk of cross contamination that can occur with standard pump dispensers. Its easy to pour and fill design eliminates the need for costly refill containers that can increase your cost per use.

The Centers for Disease Control (CDC) Hand Hygiene Guidelines prove alcohol based hand sanitizers are the most effective way to kill germs on hands. Since hand hygiene is the #1 way to prevent the spread of infection, why not use the solution that keeps hands clean, moisturized and refreshed!

**INSTAFRESH™**
