***SULTAN HEALTHCARE OFFERS SOAPLETS™
ANTI-MICROBIAL FOAMING HAND SOAP TABLETS***

Unique Tablets Create a Powerful, Germ-Fighting Foam Soap

ENGLEWOOD, NEW JERSEY, (June 2008) – Sultan Healthcare announces SOAPLETS™ Anti-microbial Foaming Hand Soap Tablets. SOAPLETS™ are patented, concentrated tablets that create a highly effective hand soap.

SOAPLETS™ Anti-microbial Foaming Hand Soap Tablets are easy to use. Drop two tablets in a foaming dispenser and fill with water. SOAPLETS™ effervesce in minutes creating liquid hand soap. A special pump dispenser turns the liquid into a rich, thick foaming consistency. The foaming soap helps save time by eliminating the need to pre-wet hands, yet still removes dirt, oils and germs easily and effectively.

SOAPLETS™ provides broad spectrum activity against pathogens such as Methicillin Resistant Staphylococcus aureus (MRSA), Escherichia coli, Staphylococcus aureus, Salmonella choleraesius, and Pseudomonas aeruginosa.

SOAPLETS™ is gentle on skin. It contains natural jojoba oil to keep hands moisturized without affecting the integrity of your latex gloves, and provides a pleasant, fresh lemon fragrance.

These unique tablets save valuable storage space in an office. They eliminate the need to store, handle or ship big heavy bottles of soap. One tiny box of 12 tablets makes 3 Liters of foaming hand soap!

“SOAPLETS is an anti-microbial soap that gentle on your skin and leaves a nice fragrance,” says Tim Lorencovitz, Infection Control Product Manager. “What is truly unique is that two small tablets create enough foaming hand soap for over 340 uses. It really helps save valuable storage space in the office.”

Sultan Healthcare is offering a FREE 17oz (500ml) Foaming pump bottle with the purchase of one box of SOAPLETS Antibacterial Foaming Soap Tablets. Each SOAPLETS box contains 12 tablets which make over 100oz (3 Liters) of liquid foaming soap. SOAPLETS are now available directly through Sultan’s global network of distribution partners.

Sultan Healthcare, established in 1872, is a leading manufacturer of infection control, dental materials, preventive products and oral therapeutics. Sultan distributes products through dental and medical dealers on every continent and maintains its global reach with an extensive network of highly trained field representatives.
