To whom it may concern:

As a bank officer at UniBank, it is my pleasure to recommend American Business Equipment for the purchase of office business equipment, modular office partitions and furniture.

My involvement with American Business Equipment began over sixteen years ago when our main office was about 15,000 square feet and we only had four branch offices. Today UniBank is the premier bank of the Blackstone Valley with our newly constructed Operations & Loan Center as well as renovated main office now occupying about 100,000 square feet, and seven other office locations. All of our offices are served by American Business Equipment for business equipment (purchase and service), setup of modular office partitions, and the purchase of as well as assistance with moving office furniture.

Through the years and difficult economic situations, Dave Zabka and the rest of the staff at American Business Equipment still treat their customers with the same promptness, courtesy, reliability and service as they have since I began working with them. These are just some of the reasons why I recommend American Business Equipment.

Sincerely,
