# WHY CHOOSE A DAHLE SHREDDER?

## NEED

Why Shred? Recent events have made shredding confidential information a necessity. Documents found in the trash are not legally protected so they're fair game to individuals looking to find out more information about you and your business. This explains the rapid increase in Identity Theft and Industrial Espionage. Federal security laws require that medical and financial institutions as well as normal business owners must properly safeguard their clients personal and financial information. What's the best way to dispose of this information? Shred it with a Dahle professional shredder.

## QUALITY

Dahle shredders are manufactured in Germany by Dahle Bürotechnik GmbH using the latest technology and finest materials. Each component is manufactured and assembled with precision from over 20 years of experience. Dahle shredders use solid cutting cylinders milled from German Solingen steel that are guaranteed to last a lifetime. Other components such as rubber shock mounts, electronic sensors, and a thermally protected motor produce a quality machine and peace of mind in knowing your Dahle shredder will provide many years of trouble free operation. See "What Sets Us Apart" on page 5.

## SERVICE

Our commitment to our products continues long after your original purchase. We take great pride in our extensive dealer network located throughout the U.S. and Canada. These dealers are hand selected and share the common goal of providing the highest quality products and services to meet the needs of our customers. If you're not sure who to call about an issue then contact Dahle's Customer Relations Department at (800) 995-1379. Our team of professionals will take care of your problem or put you in touch with one of our representatives that can. We also offer free technical support over the phone to help you work through any problem you might encounter.

## LIMITED LIFETIME WARRANTY

Dahle guarantees its paper shredders to be free from manufacturing defects (materials / workmanship) for a period of 2 years. Dahle offers a lifetime guarantee on the cutting cylinders (1 year on Security Level 5 and Level 6 models).

This guarantee does not cover damage caused by improper oiling, paper jams, misuse, abuse, improper line voltage, or unauthorized repair. This guarantee applies to the original purchaser only and is not transferable. There are no other guarantees expressed or implied beyond the face of this agreement. For service or more information on this warranty, contact a Dahle Account Representative at (800) 995-1379.

# WHAT SETS US APART

## SOLID CUTTING HEAD

A solid block of German Solingen Steel is milled to create each cutting cylinder.

## STATE-OF-THE-ART ELECTRONICS

Provides dependable control of all operational features including Automatic on/off, Automatic Reverse, as well as audible and visible indicators for Door Open, Bag Full and Overfeed.

## METAL STRIPPERS

Our rugged steel strippers keep the cutting mechanism free of shredded paper.

## CONTROL PANEL

Soft touch buttons and LED status indicators ensure you have total command of all shredder functions, including the ability to choose between auto on/off, continuous run and reverse.

## ALL STEEL FRAME

Keeps the cutting cylinders in perfect alignment for optimal performance.

## CHAIN DRIVEN

Provides slip-free power to the cutting mechanism for maximum throughput.

## SHOCK MOUNTS

The shredding module sits on rubber mounts to isolate noise and vibration from the cabinet, making Dahle shredders some of the quietest on the market.

## WOODEN CABINET WITH CASTERS

Attractive wood cabinets help reduce noise and fit in with any office decor. Rolling casters make it easy to move your shredder from office to office.

## THERMALLY PROTECTED MOTOR

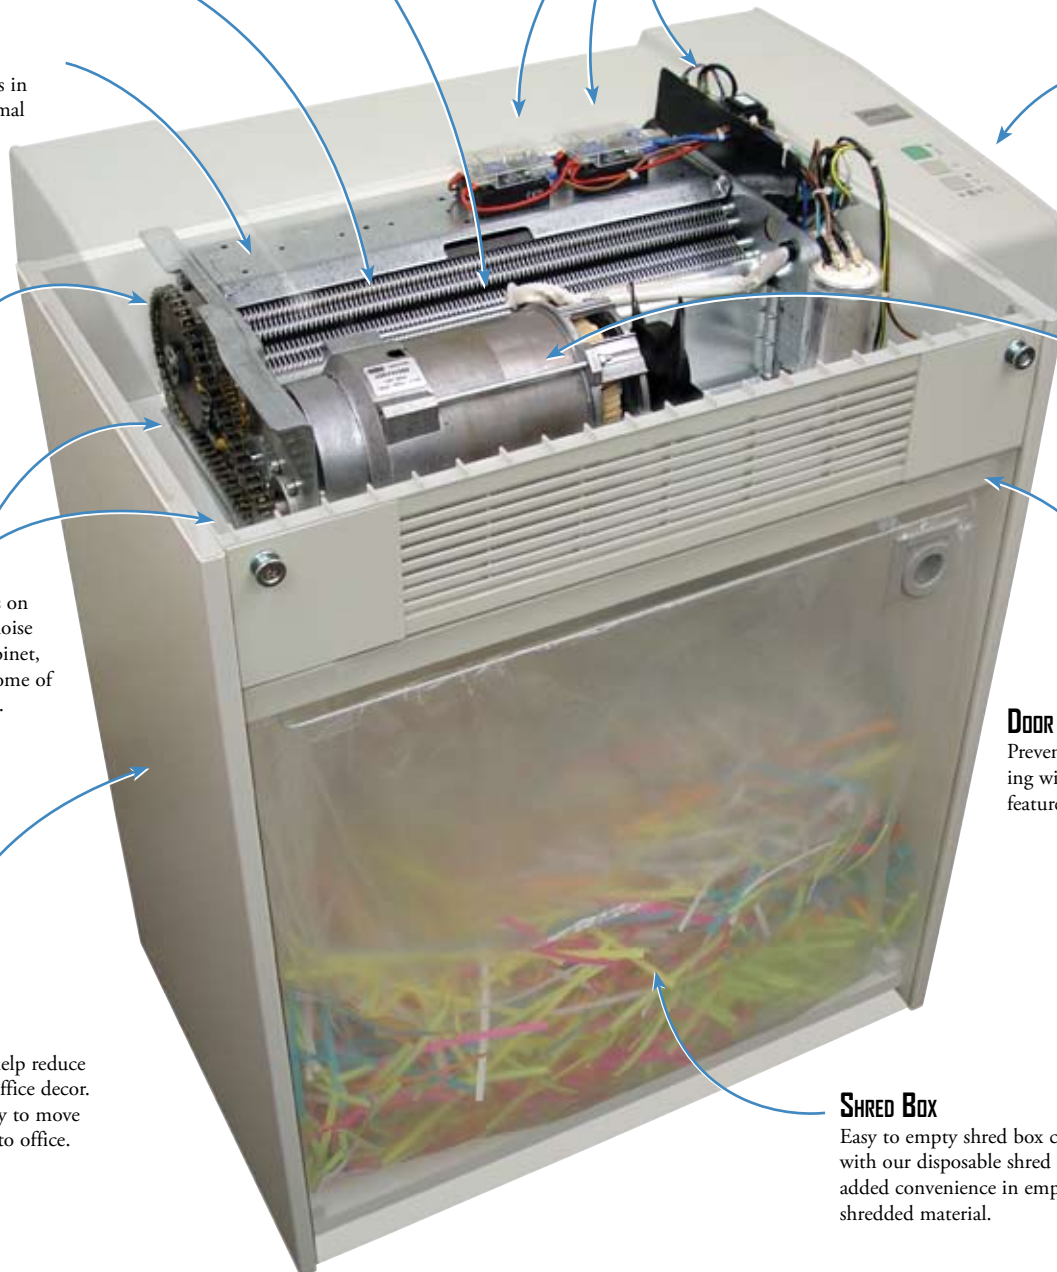

Thermal protection prevents damage to the motor from overheating.

## DOOR OPEN INTERLOCK

Prevents the shredder from operating with the door open. This safety feature is found on all models.

## SHRED BOX

Easy to empty shred box can be lined with our disposable shred bags for added convenience in emptying your shredded material.

\*Some components not available on certain models.

# CHOOSING A SHREDDER

There are many things to consider when purchasing a paper shredder and all the variables can seem overwhelming. After all, the privacy of your confidential information is at stake, so it's important to make the right selection. With sheet capacities, motor sizes and waste volumes to consider, we'll help you narrow down your selection to only a few models with the following simple questions.

After you narrow down your choices it's important to remember that your shredding volume will increase with time, so be sure to factor in growth when making a selection. If after all of this you are still having trouble, contact your local Dahle dealer or call us at (800) 995-1379 and we'll help you make a decision based on your needs.

## HOW MUCH WILL YOU BE SHREDDING EACH DAY?

Personal Size Shredders:	Up to 100 sheets per day
Small Office Shredders:	Between 100 and 400 sheets per day
Office Shredders:	Between 400 and 2,000 sheets per day
Multi+Media Shredders:	Between 2,000 and 8,000 sheets per day
Department Shredders:	Between 2,000 and 12,000 sheets per day
High Capacity Shredders:	20390 Series: Between 12,000 and 28,000 sheets per day 20450 Series: Between 28,000 sheets and 2 tons per day

## WHAT LEVEL OF SECURITY DO YOU NEED?

Security Level 1:	For shredding general internal documents ( <i>Not available on Dahle Shredders</i> )
Security Level 2:	Strip Cut Particles - For shredding sensitive internal documents
Security Level 3:	Cross Cut Particles - For shredding confidential documents
Security Level 4:	Extremely Fine Cross Cut Particles - For shredding highly sensitive documents
Security Level 5:	Espionage safe for extremely high demands of security
Security Level 6:	NSA/CSS specification 02-01 which is the current standard for the destruction of Top Secret COMSEC documents
NSA/CSS 02-02:	Highest security level for high security disintegrators

## DO YOU PREFER STRIP CUT OR CROSS CUT?

**Strip Cut**

Documents are cut into thin unreadable pieces. Generally the strips will be as long as the document.

**Cross Cut**

Documents are cut in two directions producing smaller particles and providing greater security.

# CARING FOR YOUR SHREDDER

## OILING YOUR SHREDDER

The key to maintaining your shredder at peak performance is proper oiling. Dahle shredder oil is recommended because it's specially formulated to not leave any residue that could attract dust and clog the shredding mechanism. When oiling your shredder, apply a generous amount directly across the feed opening of the machine.

The frequency a shredder needs to be oiled will vary. A Strip Cut shredder being used 1-2 hours per day will need lubrication weekly. A Cross Cut shredder should be lubricated after every ½ hour of use. Dahle Automatic Oilers are a smart alternative to ensure your shredder receives proper oil. Our High Security shredders are pre-wired for our Automatic Oilers and Dahle strongly encourages their use.

## PROPER VOLTAGE

Like every electronic device, proper voltage is essential to ensuring optimal performance and prolonging the life of your Dahle shredder. Most Dahle shredders operate on standard 115v service. To make sure your Dahle shredder receives all the power it needs, we strongly suggest plugging it directly into an outlet and not into a surge protector. Our High Capacity shredders do have special electrical needs and their requirements are noted in their specifications to avoid confusion.

## PREVENTING AN OVERFEED

The best way to prevent an overfeed is to ensure the shredder receives proper oiling and voltage, and that the recommended sheet capacity for your shredder is never exceeded. The sheet capacity is carefully calculated to ensure consistent shredding for the life of the shredder. If an overfeed does occur, it is typically due to one of the above three factors. If your Dahle shredder should ever experience an overfeed, please contact us and we will provide you free technical support over the phone to help clear your shredder.

# PERSONAL SHREDDERS

*State-of-the-art electronics conveniently turns the shredder on when shredding and then off.*

*Desk side placement makes it easy to shred without leaving your workstation.*

It's all about convenience with a Dahle Personal Shredder. Whether you're an executive, a secretary, or someone looking for added security at home, these machines are small enough to accommodate any workspace yet powerful enough to get the job done. Dahle's smallest line of shredders are designed for shredding up to 100 sheets of paper per day and are perfect for destroying bank statements, credit applications and financial records. These shredders can be conveniently placed at arms length so you never have to leave your desk to properly dispose of confidential documents.

Dahle Personal Shredders are built with a 8 3/4" feed opening to accommodate both letter and legal size paper with ease. These machines are small enough to fit under your desk yet large enough to handle 8 gallons of shredded waste. This range offers a strip cut (model 30104) and a cross cut (model 30114) shredder which are able to shred to security level 2 or 3 standards.

These machines feature Automatic On/Off operation that uses an electronic sensor to turn the machine on. All you have to do is position your document in the feed opening and the shredder will take care of the rest. Bag Full Auto Off is another convenient function that notifies you when the shred bag is full and needs to be changed. It's these state-of-the-art features that save you time and take the burden out of shredding your documents.

Dahle's Personal line of paper shredders are made in Germany using the latest technology and finest materials. Each component is manufactured and assembled with precision from over 20 years of experience. Dahle shredders use solid cutting cylinders milled from German Solingen steel and are guaranteed to last a lifetime. The end result is a quality machine and peace of mind in knowing your Dahle shredder will provide many years of trouble free operation.

Personal Size

Small Office

Office

Multi+Media

Department

High Capacity

High Security

*9 1/2" feed opening easily accommodates letter and legal size paper.*

*Safety features include automatically shutting off the shredder when the door is open.*

Proficiency best describes Dahle's line of Small Office Shredders with their ability to get the job done quickly and easily with minimal effort. Small offices or teams of employees will benefit from the ease of use and quiet operation of these small to mid-size shredders. They're designed to shred between 100 and 400 sheets of paper per day and are perfect for destroying personnel records, client proposals and tax information.

With seven models to choose from, Dahle Small Office Shredders are built with a 9 1/2" feed opening to accommodate both letter and legal size paper with ease. This range offers two strip cut models (20304 / 20404) and five cross cut models (20314 / 20330 / 20414 / 20422 / 20430) that are able to shred to the standards of security level 2, 3, 4 or 5. All you need to do is decide what to shred and your Dahle Small Office shredder will take care of the rest.

These machines are constructed using a wooden cabinet with swing open door. This door hides the addition of a removable Shred Box which

makes changing bags easier. This box can be easily lined with Dahle's Disposable Shred Bags and emptied or recycled when full. If you're not sure when that will be - don't worry. Your shredder will inform you with its visual warning indicators. Once your shredder is empty and the door is closed, it will resume normal operation.

Getting things done quickly and easily may be the strong suit of these shredders, but it's just the opposite of our service department. We take great pride in our extensive dealer network located throughout the U.S. and Canada. Their commitment to our products continues long after your original purchase. Not sure who to call about an issue? Then contact Dahle's Customer Relations Department at (800) 995-1379 and we will take care of your problem or put you in touch with one of our representatives that can.

# OFFICE SHREDDERS

*The electronic control panel allows for auto on/off, continuous run, and reverse operation*

*Rubber shock mounts reduce vibration and provide extremely quiet operation.*

With the widespread use of networked printers and fax machines, confidential business information is constantly being printed throughout the workday. It's important to have a powerful shredder located nearby to easily dispose of this information. Dahle Office Shredders are designed to accommodate the needs of most busy offices by shredding between 400 and 2,000 sheets of paper per day. This is the perfect device for properly destroying marketing plans, health records, and any other confidential information that should not be seen by others.

With eight models to choose from, Dahle Office Shredders are built with a 10" feed opening to accommodate both letter and legal size paper. This range offers four strip cut models (20506 / 20606 C / 20606 EC) and five cross cut models (20514 / 20612 C / 20612 EC / 20614 EC / 20630 EC) that are able to shred to the standards of security level 2, 3, 4 or 5. The 20606 C/EC shredders feature a powerful 1 Hp motor capable of shredding 38 sheets of paper at a time.

Dahle Office Shredders use the latest technology. Some models feature full electronic capabilities including such safety features as Automatic Shutoff when the cabinet door opens and Auto Reverse to prevent an overfeed. Automatic On/Off and Bag Full Auto Off are features that offer both convenience and satisfaction in knowing you will be notified when it's time to empty the box or change the bag.

Normal office functions will not be bothered by the use of your Dahle Office Shredder. Each cutting cylinder is encased in an all-steel frame and sits on rubber shock mounts. It's this design that reduces vibration through the cabinet and provides whisper quiet operation. With its ease of use and state-of-the-art capabilities, the Dahle Office Shredder will soon become a favorite meeting place and quite possibly the water cooler of the future.

# MULTI+MEDIA SHREDDERS

*Able to shred multiple media formats such as CDs, DVDs, and floppy disks.*

*Contemporary wooden cabinet houses shredded waste and deafens noise for quiet operation.*

Confidential information can be found in many different formats, so why not have a shredder that can destroy them all? With this in mind, Dahle's developed a new generation of shredders that can destroy more than just paper. The 30406 & 30414 Multi+Media Shredders are designed to shred between 2,000 and 8,000 sheets of paper per day as well as CDs, DVDs, and floppy disks. The shredder's contemporary design and large storage capacity make them a nice addition to any large office, copy room or communications center.

The ability to shred multiple media formats is made possible by a chain driven 1 1/4 Hp motor that provides slip free power to the cutting mechanism. These cutting cylinders are the core of the shredder and are milled from a solid block of German steel. The result is a machine with strength, power, and the ability to handle all of your information destruction needs.

Dahle incorporated the latest technology when developing the Multi+Media Shredders.

Standard operator functions are made possible through an easy to use control pad which allows you to power the unit up and place it in either forward, reverse, or continuous run. The wooden cabinet not only houses the shredded waste but also deafens the noise to allow for whisper quiet operation. Not sure when your waste bag is full, your shredder will inform you with its audible and visible warning indicators. Once your shredder is empty and the door is closed, it will resume normal operation.

Our commitment to our products continues long after your original purchase. We take great pride in our extensive dealer network located throughout the U.S. and Canada. Dahle dealers are hand selected and share the common goal of providing the highest quality products and services to meet the needs of our customers. If you're not sure who to call about an issue, contact Dahle's Customer Service Department at (800) 995-1379. Our team of professionals will take care of your problem or put you in touch with one of our representatives that can.

*Chain-driven motor provides slip free power to the cutting mechanism.*

*Large 35 Gallon waste compartment requires less frequent bag changes.*

Known for their power and waste capacity, Dahle Department Shredders provide a practical solution for accommodating the shredding needs of even the busiest offices. These machines can continually shred large quantities of paper for long periods of time and are designed to shred between 2,000 and 12,000 sheets of paper per day. Their attractive design and large storage bin make them a nice addition to any large office, copy room or communications center.

With nine models to choose from, Dahle Department Shredders have a larger feed opening to easily accommodate letter, legal and wide computer paper (excludes 30430). The machines with the largest sheet capacity in this range can shred up to 32 sheets of paper at a time. Department Shredders feature a large capacity waste bin and are capable of holding 35 gallons of shredded material. This series includes three strip cut models as well as six fully electronic cross cut machines with the ability to shred to the standards of security levels 2 - 5.

The shredding power of these machines originates from a 2 horsepower continuous duty motor (most models) which allows for longer shred periods without cooling down. In order to provide slip free power to the cutting cylinders a steel chain connects the two components and provides maximum shredding capacity. Removing staples and paper clips are a thing of the past. Dahle shredders can easily accommodate these items without harming the machine and saving you time in the process.

Properly oiling Dahle's Department Shredders is the key to maintaining optimal performance. Dahle Shredder Oil is the best lubricant since it's specially formulated to not leave any residue that could attract dust and clog the shredding mechanism. Due to it's function most Department Shredders are placed in common areas and have multiple users. As a smart alternative of ensuring your machine receives proper oil, we recommend adding an Automatic oiler.

# HIGH CAPACITY SHREDDERS

*Conveyor of rollers on each side make easy removal of the 50 gallon waste container.*

*User friendly controls provide ease of use and reduce the chance of injury.*

In today's society there's nothing more critical than the accumulation of large volumes of confidential waste. A company's financial records, health information or personnel records can be seen by all if not shredded immediately. Dahle High Capacity Shredders are just the tools to destroy large quantities of paper in a short amount of time. These machines fit nicely in company mail rooms or any other centralized location where large amounts of shredded material is taken. Expensive shredding services are no longer needed with the ability to hold 50 gallons of shredded confidential waste. Not to mention the confidence in knowing your documents are immediately destroyed and can no longer be seen by others.

Our smaller High Capacity Shredders have a 16" feed opening and can handle up to 43 sheets (20396) or up to 60 sheets (20390) of paper at a time. These machines are driven by a powerful 2 horsepower motor and are designed to shred between 12,000 and 28,000 sheets of paper per day. Both shredders feature full elec-

tronic capabilities including such safety features as automatic shutoff when the door is open and auto reverse to prevent an overfeed. Housed in a wooden cabinet with casters, these rather stout machines are easy to move and position in their place of operation.

If you looking for something with a little more power and capacity, Dahle's largest shredders have a 17" feed opening and can handle up to 85 sheets (20453) or up to 100 sheets (20452) of paper at a time. These hopper style units are intended to shred between 28,000 and 2 tons of paper per day and are driven by a powerful 3 horsepower motor. Metal construction makes these shredders extremely durable and with the addition of three fold out tables, stacking papers and material is now more convenient. These gentle giants are surprisingly quiet for their size and their user friendly controls make them easy for anyone to operate. For safety purposes, these machines feature a special locking mechanism to prevent injury and unauthorized use.

# HIGH SECURITY SHREDDERS

Personal Size

Small Office

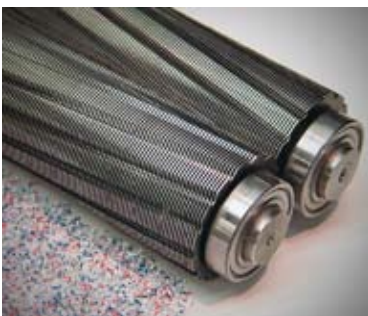

Office

Multi+Media

Department

High Capacity

High Security

*Dahle High Security cutting cylinders reduce a sheet of paper to over 15,500 pieces.*

*Dahle High Security shredders have been tested and approved by the NSA under NSA/CSS Specification 02-01.*

In order to protect our National Security, military and government agencies require higher levels of security from their paper shredders. With this in mind, the U.S. Department of Defense has increased the requirements for the destruction of Top Secret COMSEC documents. **NSA/CSS Specification 02-01** is the current standard for maximum particle area and maximum particle dimensions as well as setting a tough standard for machine durability.

Dahle High Security Shredders are specifically designed to exceed the standards set forth by the National Security Agency. Our 1mm x 4.7 mm particle size makes any document unreadable and impossible to reassemble. All five machines feature automatic operation and will automatically shut off when the shred compartment is full. Electronic sensors will turn the shredder on when you're ready to shred, turn the shredder off when the shred compartment is open, and even put the machine into reverse to prevent an overfeed (excludes 20434 DS and 20434).

Depending on your daily shredding, Dahle High Security Shredders are available in different sizes including Deployment (20434 DS) Small Office (20434), Office (20634 EC), Department (30434, 20835 EC, 20834 EC), and High Capacity (20394). But don't confuse size with ability. Whether you're shredding 100 sheets per day or 28,000, all Dahle High Security Shredders are serious machines capable of reducing a sheet of paper into over 15,500 tiny particles. These particles are so small that they have been rendered impossible to reassemble.

As the U.S. continues to face security threats on a global level, Dahle will continue to offer solutions without compromise to operation or dependability. These machines are perfect for military, federal, state or local governments as well as Department of Defense contractors engaged in projects where National Security is an issue. In a world of uncertainty one thing's for certain, whatever you put through these shredders, we guarantee will never be seen again.

# SHREDDER SUPPLIES & ACCESSORIES

## SHRED BAGS

Specifically designed to fit your Dahle shredder, these shred bags feature gusseted sides to allow for greater volume of waste material. A supply of Dahle shred bags are included with your shredder and fit nicely inside Dahle Shred Boxes.

Stock Number	Description	Quantity	Shipping Weight
701	For use with Personal & 20300 series shredders	100 / box	6 lbs
704	For use with 20400, 20500 & 20600 series shredders	100 / box	10 lbs
705	For use with Multi+Media & Department Shredders	100 / box	12 lbs
706	For use with High Capacity Shredders	100 / box	21 lbs
710	For use with XC-100 Disintegrator	10 / box	10 lbs

## SHRED BOX

Dahle Shred boxes are sturdy and sized to fit your Dahle shredder (Small Office Shredder and larger). This easy to empty box can be lined with our disposable shred bags for added convenience in emptying your shredded material.

Stock Number	Description	Quantity	Shipping Weight
750	For use with 20300 series shredders	1 box	3 lbs
749	For use with 20400 series shredders	1 box	3 lbs
748	For use with Office Shredders	1 box	4 lbs
747	For use with Department Shredders	1 box	Oversized at 30 lbs
739	For use with 20390 series shredders	1 box	Oversized at 30 lbs

## SHREDDER OIL

For optimal performance your shredder should be frequently oiled using Dahle Shredder Oil. This oil is specifically formulated for Dahle shredders and offers high cling value with low dust retention. A Material Safety Data Sheet (MSDS) can be downloaded from our website and is available upon request.

Stock Number	Description	Quantity	Shipping Weight
740	For use in all shredders	4 - 16 oz. bottles / case	5 lbs
740 G	For use with Automatic Oiler	4 - 1 gal bottles / case	32 lbs

## AUTOMATIC OILER

Don't risk damage to your shredders cutting system by running it without proper lubrication. Dahle's Automatic Oilers offer the most efficient lubrication delivery system on the market.

Stock Number	Description	Quantity	Shipping Weight
SAO-110	1.5 Liter Automatic Oiler	1 Unit	11 lbs
SAO-120	4 Liter Automatic Oiler	1 Unit	12 lbs
SAO-220	4 Liter Automatic Oiler (for 220v applications)	1 Unit	12 lbs
