For Canadian Orders

Zone 1 prices apply to all orders delivered within 800 kilometers of Toronto. Zone 2 prices apply to all other orders.

Eleven Tips: How to Get the Most Out of This Book

Tip 1

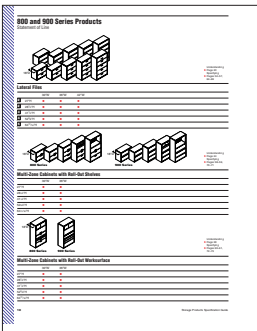

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Self-adhesive tabs

are available to help you find the start of each chapter in this book. If the kit of self-adhesive tabs is not included with this book, order S10578 from Advertising Stock at 1.800.784.0358. The kit will include tab sets for more than ten different specification guides.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics
- Shipping

Application Topics

provides additional resources relevant to the product.

Shipping describes how the product is packaged for delivery.

Product Drawing

shows you what the product looks like and points out important features.

Wiring and Cabling

details the cable-management and cable routing capabilities of the product.

Product Details

gives specific information on the product and how it is used.

800 and 900 Series Multi-Zone Cabinets with Roll-Out Worksurface

Product Details

Dimensions and shelves

Actual Dimensions

| Dimension | Value |
|------------------------------|---------------|
| Depth | 24" (610 mm) |
| Height | 48" (1219 mm) |
| Width | 48" (1219 mm) |
| Work surface height | 36" (914 mm) |
| Roll-out work surface height | 36" (914 mm) |

Actual Dimensions

table lists the dimensions of the product.

Connections

describes how the product is assembled or how it attaches to another product.

Surface Materials

lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
- Dimensions
- Style Number
- Price

Standard Includes (under the dark grey band) provides a list of what comes standard with the product.

Required to Specify (under the dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information (under the light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing shows you what the product looks like.

800 Series Multi-Zone Cabinets with Roll-Out Worksurface

See page 102 for Safe Use of Storage Products when assembling and for proper handling and use of storage and/or display personal injury.

| Standard Includes | | Required to Specify | |
|---|---|---|---|
| • 12" roll-out work surface with 1/2" depth | • 12" roll-out work surface with 1/2" depth | • 12" roll-out work surface with 1/2" depth | • 12" roll-out work surface with 1/2" depth |
| • 12" roll-out work surface with 1/2" depth | • 12" roll-out work surface with 1/2" depth | • 12" roll-out work surface with 1/2" depth | • 12" roll-out work surface with 1/2" depth |

800 Series Multi-Zone Cabinets

| Dimensions | Recommended Configuration | Style Number | U.S. Base Price | CANADA Price |
|-----------------|---------------------------|--------------|-----------------|--------------|
| 12" 30" 64 1/2" | 2500W | 800000E | \$1450 | \$1800 |
| 12" 30" 64 1/2" | 2500W | 800000E | \$1450 | \$1800 |

| Options | U.S. Price | Zone 1 Price | Required to Specify |
|---|------------|--------------|----------------------------|
| • 12" roll-out work surface with 1/2" depth | +12.00 | +12.00 | Specify paint color number |
| • 12" roll-out work surface with 1/2" depth | +12.00 | +12.00 | Specify paint color number |

For Consistent Orders: The top 100 specifications determine whether Zone 1 pricing class pricing applies to your order.

Options (under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify with 9250 Ember Chrome lo

Select key number from FR305-FR factory installation. Specify plug and order lock cylinders separately for field installation. ▶ Page 302 Specify key consecutive and must specify beginning key number from FR305-Specify master key random.

Italic typeface on specifying pages usually identifies wording that you should use in your order.

Tip 7

Tip: When you choose an optional interior, it will apply to all the openings in the cabinet. Order interior components for field installation separately.

▶ See page 164

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8

3" roll-out shelf does not tie into the safety

Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers. ▶ Page 233

Tip 10

| Style Number | Page |
|----------------|------|
| 7302611 | 185 |
| 7302612 | 197 |
| 7302613 | 197 |
| 7302614 | 197 |
| 730541 | 195 |
| 730552 | 195 |
| 730555 | 196 |

Refer to the style number index when you know a style number and you need to find the page that has more details about the product. ▶ Page 237

Tip 11

| A | |
|----------------------|--------|
| Activity Products | 17 |

Use the alphabetical index to find the page that has more details about the product. ▶ Page 243

Additional Resources

Product Brochures

Storage Solutions Brochure

This brochure provides valuable information on Steelcase storage products. First, gain practical insights on information management. Second, learn how Steelcase storage products can support information management. Finally, take a comprehensive look at storage products across all Steelcase companies.
Form number S11272

Storage Product Sheets

These one-page sheets feature color environment and/or stand alone product photos on the front and statement of line, dimensions, features, accessories, and compatibility information on the back.

- *FirstFile 100/200 Lateral Files* (Form number S3449)
- *1700 Series Vertical Files* (Form number S3451)
- *800/900 Series Lateral Files* (Form number S3450)
- *900 Series Overfiles* (Form number S3453)
- *800/900 Series Vertical Files* (Form number S3452)
- *730/970 Series Storage Cabinets* (Form number S3454)
- *730 Series Bookcases* (Form number S3448)

Product Profile Sheets

These one-page sheets feature products that address common business issues. Packed in sets of 25.

- Adapt S11053
 - Define S11054
 - Save S11055
 - Choose S11056
 - Organize S11285
 - Access S11273
- Information folder with all 6 sheets above S11131.

Storage Application Ideas

This 24-page booklet helps demonstrate the range of application solutions offered, and provides a helpful way for customers to begin to assess their need for a variety of storage applications. Also includes specific information on Steelcase standard products, enhancements, and specials that make this range of applications possible.
Form number S2694

Huddleboard Product Overview Brochure

Huddleboard Product brochure provides an overview of the many ways Huddleboard Products can be used.
Form number S11129

Huddleboard Thought Starters

This application guide helps you to demonstrate the range of application solutions Huddleboard Products have to offer. It provides a helpful way for customers to begin to assess their teaming and individual work setting needs for marker board space. Huddleboard Products provide a "Conference Room on the Go!"
Form number S11130

Huddleboard Products User Guide can be found at www.steelcase.com.

Creating Order Out of Chaos Knowledge Paper

Provides keen insights into the issues surrounding effective information management. The booklet also provides important statistics backed by extensive Steelcase research. It's a great tool to help differentiate Steelcase storage products from the competition.
Form number S11278

PhotoLog

This catalog of photographic images gives you access to cut file photographs and up-to-date views of furniture in workspaces. Pictures of filing and storage products in conjunction with systems furniture and other products are included. You can order prints, transparencies, slides, or digitized images on disk using the fax-back order form.
Form number S2388

Planning Tools

Quick Delivery Handbook

This handbook describes all Steelcase, Turnstone, Details, and Steelcase Design Partnership products that are available for 5-Day (5-day delivery), Express12 (12-day delivery), or 15-Day (15-day shipment).
Form number S3408

Surface Materials

Surface Materials Reference Manual

provides an explanation of the basic structure of the surface materials program, descriptions of the surface materials and their color categories, pricing information, general technical information, and information about the care and cleaning of surface materials.
Form number S1359

Customer's Own Material (COM) Web site

features fabric test results for all COM fabrics which have been tested by Steelcase and also allows you to calculate yardage requirements for most Steelcase seating lines. The Web site will always contain the most current information available, providing the same information you would receive if you called or faxed a COM Consultant. To locate the COM Web site:

- Visit www.steelcase.com
- Click on "Tools & Insights"
- Select "Customer's Own Material"

Computer Tools

Electronic Catalog

An electronic tool to help users generate complete and accurate quotations and purchase orders. The electronic catalog runs on leading pc-based specification programs such as OnTrak and CAP®.

Computer-Aided Design Support

A collection of 2D and 3D graphic libraries is available to help designers create floor plans. The libraries work with the following CAD software programs: AutoCAD®, Arris, DataCAD®, GenericCADD, and MicroStation®. For more information on these and other third-party computer tools, contact 616.246.4042.

Product Info

Electronic versions of this and many other specification guides in Acrobat PDF (Portable Document Format) allow you to scan, search, and print any page on virtually any computer. You can access these files at the Steelcase.com Web site or My Sales Online at in2.Steelcase.com.

Storage Building Product Muscle (BPM)

The Storage BPM is a self-study designed to improve the competence and confidence of people who deal with Steelcase products every day. It contains information on positioning, features and benefits, specifying, competitive products, selling, and much more. Materials are available on-line at learning.steelcase.com. Select course code SAL111.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

Storage products are supported with an array of informational materials, tools, and software to help you plan your installation efficiently.

Order product brochures and planning tools through your Steelcase regional office or Steelcase Advertising Stock. Orders can be faxed to Steelcase Advertising Stock at 1.800.784.0358 or 1.317.337.2900

For assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfilled Team at 1.888.STEELCASE (1.888.783.3522).

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfilled Team if you have submitted an order to Steelcase and you need to speak to your service representative about the order. Also call if you have any post-shipment quality or warranty concerns or service parts questions.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939, or visit our Web site: www.steelcase.com.

Related Products

Steelcase and other manufacturers produce products that are ideal to use with Storage products. Some of them are listed here along with details about how to get product literature.

Activity Products can be used in open plan or enclosed work areas. Activity Products provide worksurface areas, display areas, and privacy, and meet utility needs.

Activity carts can be found in the *Activity Products Specification Guide* (S11021).

Activity tables, screens, and posts can be found in the *Activity Products Specification Guide* (S11021).

Conjunction wall-mounted worktool rail accommodates marker boards and photo album boards that can slide to any position. Boards can also be suspended from a Conjunction beam.

Details worktools include a full line of ergonomically designed products that enhances and improves the work setting. Product platforms include computer support tools, organizational worktools, and personal lighting. For additional product information, contact:

FirstFile 100 and 200 Series Lateral Files

100 and 200 Series lateral files are available with drawer configurations. They accommodate basic paper filing needs at an economical price.
 ▶ Specifying, pages 24–27

Lock, keyed random, is standard on all files. It secures all the drawers or receding doors in the file.

Pulls on 200 series drawers and receding doors are inset and full-width to provide a neutral look that matches Avenir components.

Pulls on 100 series drawers and receding doors are inset and match Avenir components.

Two hanging file folder frames per opening are included for side-to-side filing. Dividers are available for side-to-side filing of file folders. Rails are available to accommodate front-to-back filing.

Label holder fits inside the pull of the 200 Series lateral files. Labels 3¾"W x 1¼"H are recommended.

Label holder snaps into place on the pull of 100 Series lateral files. Labels 4"W x 1⅜"H are recommended.

Drawers and roll-out shelves open their full depth, 17⅝" extension, for total access to the contents.

Leveling glides adjust up to ⅝" to install files on uneven floors.

Product Details

Four file heights are available—2-, 3-, 4-, or 5-high.

Five-high files with drawers have four 12"H drawers in the lower openings and a 12"H roll-out shelf with receding door in the top opening. The roll-out shelf includes one hanging file folder frame and one set of dividers.

Drawers and shelves accommodate letter-, legal-, and A4 international-size filing.

Pulls are located at the top of a drawer and at the bottom of a receding door.

Actual Dimensions

Lateral file

| | |
|--------------------------------|----------------------------|
| Depth | 18" |
| Width | 30", 36", or 42" |
| Height | 27", 39", 51⅝", or 63⅑⁄₃₂" |
| Drawer or receding door height | 12" |
| Leveling glide range | ⅝" |

100 Series pull

200 Series pull

Hanging file folder frames can be converted among letter-, legal-, and A4 international-size filing positions in the field.

Safety interlock system allows only one drawer or shelf to be opened at a time.

Counter-weight packages must be ordered separately and field installed in 2-, 3-, 4-, and 5-high free-standing files that are not ganged either side-by-side or back-to-back to adjacent files, or anchored to the floor or wall.

Lock on all 100 and 200 Series files is standard keyed random. Consecutive and specific keying options are available. Master-keyed locks are also available.
▶ Page 218

Filing accessories, including hanging file folder frame, dividers, and rails, are available for factory or field installation.
▶ Page 31

Exterior tackboards and slatwalls are available for field installation.
▶ Page 32

Connections

Tops are available for factory or field installation on the files. Tops are available with two different edge details—square edge and bullnose edge. Bullnose tops are only available for field installation.

Tip: Tops are 1/16" wider than a file on both sides, equaling 1/8"W. When individual tops are used side-by-side, file cabinets do not fit together tightly.

Tip: Bullnose edge tops have a 1/2" overhang on the front edge of files.

Tip: Vinyl side-edge colors are defaults determined by the laminate color that is selected.

▶ Page 233
▶ See trim color defaults, page 236.

Common tops are available to connect files to make a credenza. They are always field installed.

Tip: A common top is recommended when two or more files are used next to each other to prevent a gap between files.

▶ Pages 28–30

Ganging hardware is included to link the file to adjacent files, either side-by-side or back-to-back, for stability. Files can also be anchored to the floor or wall for stability.

Overfile cabinets are separate components that are field installed on top of lateral files or anchored to a wall to provide space for additional files, ring binders, or miscellaneous storage. One- or two-shelf models are available. They are equipped with a full-height door pull and a shelf modifier that reduces the depth from legal-size to letter-size.
▶ Page 133

Anchor bracket attaches to glide and secures file to floor in compliance with the California Office of State-wide Health Planning and Development (OSHPD) rules to reduce the risk of hazards during earthquakes. To comply, all files which have the bottom of their top opening at 60"H or higher must use an anchor bracket.

Shipping

100 and 200 Series lateral files are normally shipped wrapped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

FirstFile 100 Series Lateral Files with Drawers

▶ See page 216 for details about preventing files from tipping and causing personal injury.

Tip: When you choose an optional interior, it will apply to all the openings in the cabinet. Order interior components for field installation separately.
▶ See page 33.

Accessories

for FirstFile 100 and 200 Series Lateral Files

Hanging File Folder Frame

► Specifying, page 33

Product Details

Suspends hanging file folders side-to-side in a 12"H drawer or roll-out shelf.

Specifying

Two hanging file folder frames are included with each drawer. You can order additional frames individually for field installation.

Surface Materials

Hanging file folder frame

- Black only

Actual Dimensions

| | |
|--------|------------------------------|
| Depth | 1/4" |
| Width | 27 1/4", 33 1/4", or 39 1/2" |
| Height | 1" |

Dividers

► Specifying, page 33

Product Details

Divides space in 12"H roll-out shelves or 12"H drawers, to allow side-to-side filing of file folders. Dividers can be placed in 2" increments.

Specifying

Must be ordered separately for field installation.

Shipped in carton of three.

Factory installation in a lateral file is possible by adding the phrase "with dividers" to the standard file style number.

Surface Materials

Dividers

- Black only

Actual Dimensions

| | |
|--------|--------|
| Depth | 117/8" |
| Width | 1/16" |
| Height | 6 1/4" |

Rails

► Specifying, page 33

Product Details

Divides the width of 12"H drawers or roll-out shelves to allow front-to-back letter-, legal-, or A4 international-size filing of file folders.

Specifying

Must be ordered separately for field installation.

Shipped in carton of two.

Factory installation is possible by adding the phrase "with rails" to the standard file style number.

Surface Materials

Rails

- Black only

Actual Dimensions

| | |
|--------|---------|
| Depth | 157/16" |
| Width | 1 3/4" |
| Height | 17/32" |

Counter-Weight Packages

► Specifying, page 34

Product Details

Prevents accidental tipping when upper drawers or roll-out shelves are opened. Counter-weight package **MUST BE** ordered separately and field installed in 2-, 3-, 4-, and 5-high freestanding files that are not ganged either side-by-side or back-to-back to adjacent files or anchored to the floor or wall.

Specifying

Must be ordered separately for field installation inside the lateral file.

Surface Materials

Counter-weight plates
• Black only

Actual Dimensions

Depth 3 1/8", 4", 2 3/8"
(thickness)

Width 25 1/2", 37 1/2"

Height 18"

Tackboards

► Specifying, page 35

Product Details

Tackboards are available to attach to the back of storage unit to convert the area above the worksurface of a desk into a tackable surface.

Overfile tackboards are available to turn the back of an overfile into a tackable surface.

Tackboards are available to mount on the side of 18"D lateral file cabinet. Tackable surface in black only.

Surface Materials

Tackboard

- Vertical surface fabric on 30"W, 36"W, 42"W or 59 1/2"W
- Tackable black surface on 18"W

Actual Dimensions

Depth 1/2" or 3/4"
(thickness)

Width 16", 30", 36", 42", or 59 1/2"

Height 12", 15 3/16", 20 1/2", 23 3/16", 24", 31 5/8", 36" or 36 11/32"

Specifying

Must be ordered separately and installed in the field.

Slatwall

► Specifying, page 36

Product Details

Slatwall are available to mount on the side of 18"D lateral file cabinets.

Specifying

Must be ordered separately for field installation.

Surface Materials

Slatwall panels

- 8043 Clear Anodized Aluminum

Actual Dimensions

Depth 1/2"
(thickness)

Width 16"

Height 12", 24", or 36"

Understanding and Specifying 1700 Series Products

When ordered and installed in accordance with Steelcase specification and installation guidelines, these products meet applicable ANSI/BIFMA standards.

| | |
|---|-----------|
| 1700 Series Products | 38 |
| 1700 Series Vertical Files | 40 |
| 1700 Series Half-Height Drawers | 42 |
| Accessories for 1700 Series Vertical Files | 43 |
| Accessories for 1700 Series Vertical Files | 45 |

1700 Series Vertical Files

1700 Series vertical files have a basic design that complements a variety of office settings.
▶ Specifying, page 40

Drawer pulls have simple, curvilinear styling.

Full-depth security shelves are installed above each individually locking drawer to prevent access from the drawer opening above.

Thumb latch releases the drawer.

Lock is available. It secures all the drawers in the file.

Label holder is flush. Labels $3\frac{1}{4}$ "W x $1\frac{3}{4}$ "H are recommended.

Drawers open their full depth for total access to the contents.

Product Details

Two file widths are available to accommodate either letter- or legal-size documents.

Four file heights are available—2-, 3-, 4-, or 5-high.

Two-high files are 30"D for use adjacent to desks with 30"D tops. All other files are $28\frac{9}{16}$ "D.

Floor support kit is available for use under two-high files to increase the file height by $\frac{3}{8}$ " so an overall file height of $29\frac{3}{4}$ " (from $29\frac{3}{8}$ "H) is achieved.

Actual Dimensions

Depth $28\frac{9}{16}$ " or 30"

Width $14\frac{7}{8}$ " or $17\frac{7}{8}$ "

Height $29\frac{3}{8}$ ", $41\frac{1}{4}$ ", $52\frac{3}{8}$ ", or $58\frac{5}{8}$ "

Tip: To achieve $29\frac{3}{4}$ "H files, order a field-installed floor support kit for use under $29\frac{3}{8}$ "H files.

Straight-front compressors, standard in full-height drawers, slide into position to prevent contents from falling down.

Hanging file folder frame is available. It can be specified in place of the compressor or it can be used in conjunction with the compressor.

Rubber bumpers absorb the shock of closing drawers.

Full- and half-height drawers allow you to create a file that meets your specific storage needs. You can select a file cabinet, then choose the drawer and specify its location in the file for factory installation. Alternative drawers can also be field installed. One full-height drawer or two half-height drawers are required per opening.

Removal of drawers is possible in the field. Drawers have a handhold on the back for carrying purposes.

Tip: To avoid possible injury, remove the contents of the drawer before taking the drawer out of the file.

Lock on all 1700 Series vertical files is keyed random. Consecutive and specific keying options are available. Master-keyed locks (XF series) are available also. ▶ Page 222

Individual drawer locks are available for factory installation in the front of one or more drawers. They can be specified on files with or without a central lock. Individual drawer locks are keyed randomly in the FR series. Master-keyed locks (XF series) are also available.

Full-depth security shelves are included when individual drawer locks are specified. They are installed directly above each drawer to prevent access. Full-depth security shelves are not available for field installation.

Filing accessories, including card trays and hanging file folder frames, are available for field installation.

800 and 900 Series Lateral Files

800 Series lateral files

are available with shelves or drawers. They complement 800 Series vertical files and 730 Series storage cabinets.

► Specifying, pages 58–67

900 Series lateral files

are available with shelves or drawers. They complement Series 9000 and Elective Elements systems furniture, 900 Series vertical files, and 970 Series storage cabinets.

► Specifying, pages 60–69

Full-depth security shelves

are installed above each individually locking drawer to prevent access from the drawer opening above.

Label holder snaps into place in the 800 Series pulls. Labels 2¾"W x 1⅛"H are recommended.

Pulls on 800 Series

drawers and receding doors are rectangular and recessed. An Avenir-style pull is also available to complement Avenir systems furniture.

Leveling glides adjust up to ⅝" to install files on uneven floors.

Label holder fits inside the pull of 900 Series lateral files. Labels 2¾"W x 1⅛"H are recommended.

Pulls on 900 Series drawers and receding doors are full width and integral.

Receding doors, when open, fully recess into the file to provide access to stored materials.

Individual drawer locks are available on 800 and 900 Series lateral files. Locks are installed in each drawer to provide maximum security.

Cabinet lock is standard. It secures all the drawers or doors in the file.

Drawers and shelves open their full depth, 17⅞" extension, for total access to the contents.

Actual Dimensions

| | |
|--------------------------------|--------------------------------|
| Depth | 18" |
| Width | 30", 36", or 42" |
| Height | 27", 28¼", 41¼", 52⅜", or 64⅛" |
| Drawer or receding door height | 12" |
| Leveling glide range | ⅝" |

Product Details

800 and 900 Series lateral files can be ordered two ways—standard files and buildups.

Standard files are basic configurations that are ordered with one style number. They are 12"H drawer packages or roll-out shelf packages.

Five file heights are available—2-, 3-, 4-, or 5-high.

Five-high files with drawers have four 12"H drawers in the lower openings and a 12"H roll-out shelf with receding door in the top opening.

Tip: The top opening of all 64¹¹/₁₆"H standard lateral drawer files will contain three dividers and one hanging file folder frame to function as a backstop because lifting hanging files up out of a roll-out shelf this high is difficult for many users.

Buildups allow you to create a file that meets your specific storage needs. You can select a cabinet and then choose from a variety of components to fill the interior space.

► Page 52

Drawers and shelves accommodate letter-, legal-, and A4 international-size filing. Drawers can have documents filed side-to-side or front-to-back. Shelves allow side-to-side filing only.

Drawer and shelf interiors are available to fulfill specific filing requirements. They are factory installed by adding the appropriate suffix to the style number. They are also available for field installation.

Interiors include:

- Dividers (DV)
- Compressor (CW)
- Hanging file folder frames (HF)
- Rails (RW); available in drawers only

Tip: Your order is not complete until you add a suffix to the product style number to indicate the interior you want.

Exception: Lateral files with individual locking drawers and combination cabinet style numbers do NOT require an added suffix.

Hanging file frame is included in all 12"H drawers and roll-out shelves when they include dividers or compressors.

Exception: Drawers that are equipped with rails do not include a hanging file folder frame because they cannot be used with one another.

Tip: Hanging file folder frame is not needed to file legal-size documents side-to-side in drawers. Save the frame for future letter-size filing.

Pulls are located on the top of a drawer and at the bottom of a door.

800 Series pull

900 Series pull

Avenir pull used on Avenir products

Avenir-style pull used on 800 Series products

Avenir-style pulls are available on 800 Series to complement Avenir systems furniture.

Tip: The Avenir-style pull is NOT identical to the actual Avenir pull. It is flush and does not have the radius lip on the top edge of the pull, so it will allow the receding door to go back into the file.

Safety interlock system allows only one drawer or shelf to be opened at a time.

Counter-weight packages must be ordered separately and field installed in 2-, 3-, 4-, and 5-high cabinets that are not ganged to adjacent files (either side-by-side or back-to-back) or anchored to the floor or wall.

► Page 147

Lock in case top of 64¹¹/₁₆"H lateral file with individual locking drawers controls receding door in the top opening only. There is no lock in the face of the receding door.

Full-depth security shelves are included when individual drawer locks are specified. They are installed directly above each drawer to prevent access. Full-depth security shelves are not available for field installation.

Storage accessories are available for factory or field installation.

► Page 143

Exterior tackboards and slatwalls are available for field installation.

► Pages 146–147

Cabinet and door locks on 800 and 900 Series files and combination cabinets are keyed random.

Consecutive or specific keying options are available. Master-keyed locks are also available. Individual locking drawers are keyed specific.

► Page 218

Individual drawer locks

on 800 and 900 Series lateral files with individual locking drawers are standard with "plugs." The file will be shipped with plastic shipping plugs in place of the lock cylinders. You must order lock cylinders separately and specify individual key numbers for each lock. Locks will be shipped with the file so you can install them in the field. The cost of these locks is included in the price of the file.

► Page 223

Connections

Ganging hardware is included to link the file to adjacent files, either side-by-side or back-to-back, for stability. Files can also be bolted to the floor or wall for stability.

Square edge

Bullnose edge

Tops are available for factory or field installation on lateral files and cabinets.

Tops are available with two edge styles—square edge and bullnose edge. Square edge tops are factory or field installed. Bullnose edge tops are field installed only.

Tip: Tops are 1/16" wider than the file on both sides, equaling 1/8"W. When individual tops are used side-by-side, file cabinets do not fit together tightly.

Tip: Bullnose edge tops have a 1/2" overhang on the front edge of files and cabinets.

Tip: Vinyl square edge colors are defaults determined by the laminate color that is selected.

► See trim color defaults, page 236.

Common tops are available to connect files to make a credenza.

Tip: A common top is recommended when two or more files are used next to each other to prevent a gap between files.

Enclosed bases can be used with any style furniture. Leveling glides adjust up to 5/8" to install files on uneven floors.

► Page 146

Anchor bracket attaches to glide and secures file to floor in compliance with the California Office of Statewide Health Planning and Development (OSHPD) rules to reduce the risk of hazards during earthquakes. To comply, all files which have the bottom of their top opening at 60"H or higher must use an anchor bracket.

Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent.

► Page 155

Overfile cabinets are separate components that are field installed on top of lateral files and combination cabinets to provide space for additional files, ring binders, or miscellaneous storage. One- or two-shelf models are available. They are equipped with a full-height door pull and a shelf modifier that reduces the depth from legal-size to letter-size.

► Page 134

Wiring & Cabling

Enclosed base provides a space for storage of cords and cables under the file.

The front snaps off for access to the cords and cables.

Knockouts are located on the sides of the enclosed base for cable routing purposes.

Application Topics

Future interchangeability of shelves, drawers, and components is possible within the cabinet.
▶ Pages 54–57

Safe Use of Storage Products

▶ Page 216

Storage Capacities and Dimensions

▶ Page 228

Shipping

800 and 900 Series files are normally shipped wrapped in heavy duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Buildup Process

Buildups are a way of creating your own configuration of storage components within a lateral file cabinet and having the factory assemble it for you.

Special storage requirements that are beyond the capabilities of standard lateral files can be accommodated by buildups. Oversized objects, electronic media, and small files or cards are all good candidates for lateral file buildups.

Completed buildups are factory-assembled storage products that are based on your specifications of components. Factory-assembled buildups have an upcharge.

3-high cabinets must be built up to achieve base alignment with cabinets of other heights. The base of a standard 3-high lateral file does not align with the cabinets shown. See details below.

Specify 27"H cabinet to achieve base alignment, not 28 $\frac{1}{4}$ "H.
Example: 9362617DV

Specify a buildup using a cabinet that is 39 $\frac{1}{2}$ "H.
Tip: To achieve base alignment with cabinets of other heights, you must begin by selecting a BLDUP style number for a 3-high cabinet. Be sure to select the case-alignment base option and then specify the desired interior components.

▶ See page 56
Example: Select 83636BLDUP. Specify with alignment base, then select three 836DWDV12 lateral file drawers.

Specify any 52 $\frac{3}{8}$ "H or 64 $\frac{11}{16}$ "H cabinets and they will align.

Tip: Cabinet with alignment base allows components to align with components on adjacent two-high, four-high, or five-high lateral files with exterior heights of 27", 52 $\frac{3}{8}$ ", or 64 $\frac{11}{16}$ ".

Choosing the Cabinet and Components for a Buildup

1
Choose a cabinet that has enough vertical space to accommodate everything that you want to store—four interior heights and three widths are available. All cabinets are 18"D.

Cabinets for 800 Series and 900 Series lateral files are identical. The storage components that you select will determine how the file looks.

Structural support is always factory installed in 48"H and 60"H cabinets. It is located between 27"H and 39"H from the bottom of the cabinets interior space—usually at 36"H. The factory will determine the exact location based on optimal structural stability.

Location of structural support restricts the use of some storage components below it.
 ▶ See page 54 for specific rules.

| | 30"W | 36"W | 42"W | |
|-------------------------------------|------|------|------|----------------------------------|
| 27"H | | | | Alignment cases 24"H interior |
| 28 ¹ / ₄ "H | | | | 24"H interior |
| 39 ¹ / ₂ "H | | | | Alignment cases 36"H interior |
| 41 ¹ / ₄ "H | | | | 36"H interior |
| 52 ³ / ₈ "H | | | | 48"H interior |
| 64 ¹¹ / ₁₆ "H | | | | 60"H interior |

2
List the components that you want to fill the cabinet in order from top to bottom.

Tip: Some rules restrict certain combinations.
 ▶ See page 54 for specific rules.

*Cabinets have a low-profile base to align with cabinets of other heights.

800 and 900 Series Interior Components

Drawers

12"H drawers are designed for filing letter-size, legal-size, and A4 international-size documents. Both side-to-side and front-to-back filing can be accommodated.

9"H, 6"H, or 3"H drawers are designed for filing cards, roll film, cassettes, and card trays. Disks and other larger materials can be stored flat. *Tip: 3"H drawers are available in 800 Series files only.*

Heights Available

15"H, 12"H, 9"H, 6"H, 3"H

15"H drawers are designed for filing printouts. Both side-to-side and front-to-back filing can be accommodated. 15"H drawers cannot accommodate dividers.

Roll-out Shelves

12"H shelves accommodate side-to-side filing of letter-size, legal-size, and A4 international-size files.

6"H shelves can be used for filing card trays, flat storage of disks, magnetic tape reels, and other miscellaneous items.

3"H shelves can be used for flat storage of disks, magnetic tape reels, and miscellaneous items.

Heights Available

15"H, 12"H, 6"H, 3"H

15"H shelves

accommodate side-to-side filing of printouts.

Receding Doors

Cover roll-out shelves, fixed shelves, workshelves, and fixed shelves with electronic media storage components.

Doors flip up and recede out of the way when shelves are in use.

Heights Available

15"H, 12"H, 9"H, 6"H

Fixed Shelves

Provide space for files, ring binders, and miscellaneous storage.

Available three ways—without a door, with a sliding door, or with a receding door.

Heights Available

15"H, 12"H

Fixed Shelves with Sliding Doors

Provide space for files, ring binders, and miscellaneous storage.

Door pull design complements both 800 Series and 900 Series styling.

Heights Available

12"H

Roll-out Workshelves

Provides a worksurface at any practical height.

Laminate worksurface.

Pulls out its full depth (15¹¹/₁₆"") and locks into place.

Heights Available

1"H

Explanation of Buildup Rules

Rule 1

3"H drawer **does not** tie into the cabinet inter-locking system. No more than four 3"H drawers can be installed in any cabinet.

Rule 2

Combined height of one or more roll-out shelves installed behind a receding door **must not** be greater than the door height. If a fixed shelf is used, it **must be** the same height as the receding door.

Example: A 15"H receding door can be used to conceal a 15"H (or smaller) roll-out shelf, two 6"H roll-out shelves, or a 15"H fixed shelf.

Rule 3

12"H receding door that is installed directly under a structural support (crossbar on 4- and 5-high cabinets) cannot accommodate two 6"H roll-out shelves.

Rule 4

Roll-out shelves **should be** installed behind a receding door.

Rule 5

Specify the components that you want to fill the cabinet in order, from top to bottom opening.

Rule 6

3" H roll-out shelf **cannot** support card trays. A 6" roll-out shelf can support card trays; however, not if used under the structural support since there is not enough clearance.

Rule 7

If a 15"H drawer or roll-out shelf is installed in a 24"H (interior height) cabinet, the drawer **must be** in the bottom position and the cabinet **must be** ganged or attached to the floor/wall with appropriate hardware. Counter-weight cannot be installed.

Rule 8

Counter-weight package cannot be installed in cabinets that have a fixed shelf in the bottom 12" of the cabinet. If fixed shelves are used in the bottom 12" of the cabinet, the cabinet **must be** ganged or attached to the floor/wall with appropriate hardware.

Rule 9

Fixed shelves with sliding doors **can be** specified in one or more of the following locations: top position, the position directly under a structural support or the position directly under another fixed shelf with sliding doors. Fixed shelves with sliding doors can be specified in these locations only.

Rule 10

Roll-out workshelf **will be** positioned at the bottom of the opening unless otherwise specified. Any other position **must be** specifically requested. If an enclosed base is specified with the cabinet, this will affect the workshelf height from the floor.

Rule 11

Roll-out workshelf **does not** tie into the cabinet inter-locking system.

Rule 12

Roll-out workshelf **requires** 3" of height within an opening.

Buildup Tips and Examples

Specifying Steps

Step 1 Choose buildup style number.

► Cabinets for factory-assembled buildups are listed on page 70.

Tip: Alignment base option can be selected on 3-high cases for factory-assembled buildups.

For field-assembled buildups, drop the **BLDUP** suffix from the style number you are ordering.

► See specification pages for field-assembled price deductions.

800 Series buildups have cabinet style numbers that begin with an **8** and 900 Series buildups have cabinet style numbers that begin with a **9**.

Step 2 Specify the storage components that will fill the cabinet in order from top to bottom.

When a receding door will cover one or more roll-out shelves, specify the door first and then the storage components that are behind it.

Tip: When calculating the total height of the storage components in the cabinet, include the height of the doors, but don't add in the height of the storage components that are behind the door. Remember, doors are not standard with roll-out shelves but are required. You must specify them.

► See page 54 for *Buildup Options and Rules*

Step 3 Choose the appropriate style number to indicate the drawer or shelf interior that you want.

Step 4 Specify a counter-weight package to prevent accidental tipping in applications where lateral files are not ganged.

Example 1

800 Series

Tip: Following cabinet description, list components in order from top to bottom.

| Quantity | Style Number with Description |
|--------------------------------|--|
| 1 | 83636BLDUP 36"H Cabinet (no lock) |
| 1 | 836D12 12"H Receding Door |
| 1 | 836SWDV6 6"H Roll-Out Shelf with Three Dividers |
| 2 | 836PD3 3"H Drawer with Three Dividers |
| 1 | 836DWDV6 6"H Drawer with Three Dividers |
| 1 | 836DWHF12 12"H Drawer with One Hanging File Folder Frame |
| 1 | 858CW Counter-weight package |
| 36" Total height of components | |

Example 2**900 Series**

Tip: Specify door and then list components behind the door in order from top to bottom.

| Quantity | Style Number with Description |
|--------------------------------|---|
| 1 | 93648LBLDUP 48"H Cabinet with Lock |
| 1 | 936D12 12"H Receding Door |
| 2 | 836SWDV6 6"H Roll-Out Shelves with Three Dividers each |
| 1 | 936D12 12"H Receding Door |
| 1 | 836SWDV12 12"H Roll-Out Shelf with Three Dividers and One Hanging File Folder Frame |
| 1 | 936D9 9"H Receding Door |
| 1 | 836SWDV6 6"H Roll-Out Shelf with Three Dividers |
| 1 | 936DWHF15 15"H Drawer with One Hanging File Folder Frame |
| 48" Total height of components | |

Note: This cabinet will be anchored to a wall.
No counter-weight package will be specified.

Example 3**800 Series**

Tip: Specify the colors you want for each component in the buildup.

| Quantity | Style Number with Description |
|--------------------------------|---|
| 1 | 83660LBLDUP 60"H Cabinet with Lock |
| 1 | 936FSSD12 12"H Fixed Shelf with Sliding Doors |
| 1 | 836D12 12"H Receding Door |
| 1 | 836SWDV12 12"H Roll-Out Shelf with Three Dividers and One Hanging File Folder Frame |
| 1 | 836D12 12"H Receding Door |
| 1 | 836SWDV12 12"H Roll-Out Shelf with Three Dividers and One Hanging File Folder Frame |
| 1 | 836D9 9"H Receding Door |
| 1 | 836SWDV6 6"H Roll-Out Shelf with Three Dividers |
| 1 | 836PD3 3"H Drawer with Three Dividers |
| 1 | 836DWRW12 12"H Drawer with Two Rails |
| 1 | 858CW Counter-weight package |
| 60" Total height of components | |

Fixed Shelves

Tip: Specify buildup sequence in order from top to bottom of cabinet.
 ▶ See page 52 for buildup information.

Tip: Fixed shelves are factory installed to accommodate legal-size documents. For shelves in a forward position to accommodate letter-size documents, order a bracket package through Service Parts. Field installed only.

Tip: A counter-weight package cannot be installed behind a fixed shelf in the bottom opening. Files must either be ganged or bolted to the floor or wall, or a fixed shelf package may not be specified in the bottom opening of a freestanding file.

For Canadian Orders
 The "ship-to" destination will determine whether Zone 1 pricing or Zone 2 pricing should be used.

800 and 900 Series Multi-Zone Cabinets

with Roll-Out Shelves

800 Series multi-zone cabinets provide a variety of storage space to accommodate multiple storage needs and features four 3" roll-out shelves at worksurface height to help organize work and get piles off the worksurface. They complement 800 Series vertical files and 730 Series storage cabinets.
 ▶ Specifying, pages 86–87

900 Series multi-zone cabinets provide a variety of storage space to accommodate multiple storage needs and feature four 3" rollout shelves at worksurface height to help organize work and get piles off the worksurface. They complement Series 9000 and Elective Elements systems furniture, 900 Series vertical files, and 970 Series storage cabinets.
 ▶ Specifying, pages 88–89

Four 3" roll-out shelves are at worksurface height behind a receding door.

Label holder snaps into place in the 800 Series pulls. Labels 2¾"W x 1⅛"H are recommended.

Pulls on 800 Series drawers and receding doors are rectangular and recessed. An Avenir-style pull is also available to complement Avenir systems furniture.

Leveling glides adjust up to ⅝" to install files on uneven floors.

Cabinet lock is standard. It secures all the drawers or doors in the cabinet.

Receding doors, when open, fully recess into the cabinet to provide access to stored materials.

Pulls on 900 Series drawers and receding doors are full width and integral.

Label holder fits inside the pull of 900 Series lateral files. Labels 2¾"W x 1⅛"H are recommended.

Drawers and shelves open their full depth, 17⅝" extension, for total access to the contents.

Actual Dimensions

| | |
|--------------------------------|--------------------------------|
| Depth | 18" |
| Width | 30" or 36" |
| Height | 27", 28¼", 41¼", 52⅜", or 64⅛" |
| Drawer or receding door height | 3" or 12" |
| Leveling glide range | ⅝" |

Product Details

800 and 900 Series multi-zone cabinets are available 30"W or 36"W.

Five cabinet heights are available—2-, 3-, 4-, or 5-high.

Multi-zone cabinets have lateral file drawers on bottom and four 3"H roll-out shelves covered by receding door at work-surface height. Four- and five-height models feature open fixed shelves above these drawers.

Multi-zone 5-high cabinets feature interior slatwall or open fixed shelves above lateral file drawers, and also contain four 3"H roll-out shelves covered by receding door at worksurface height.

Drawers and shelves accommodate letter-, legal-, and A4 international-size filing. Drawers can have documents filed side-to-side or front-to-back. Shelves allow side-to-side filing only.

Drawer and shelf interiors are available to fulfill specific filing requirements. They are factory installed by ordering the appropriate option. 12"H drawers are standard with hanging file folder frames. They are also available for field installation.

Hanging file frame is included in all 12"H drawers and roll-out shelves when they include dividers or compressors.

Exception: Drawers that are equipped with rails do not include a hanging file folder frame because they cannot be used with one another.

Tip: Hanging file folder frame is not needed to file legal-size documents side-to-side in drawers. Save the frame for future letter-size filing.

Pulls are located on the top of a drawer and at the bottom of a receding door.

800 Series pull

900 Series pull

Avenir pull used on Avenir products

Avenir-style pull used on 800 Series products

Avenir-style pulls are available on 800 Series to complement Avenir systems furniture.

Tip: The Avenir-style pull is NOT identical to the actual Avenir pull. It is flush and does not have the radius lip on the top edge of the pull, so it will allow the receding door to go back into the file.

Safety interlock system allows only one lateral file drawer to be opened at a time. Safety interlock system doesn't affect roll-out shelves. More than one shelf can be open at one time.

Counter-weight packages must be ordered separately and field installed in 2-, 3-, 4-, and 5-high cabinets that are not ganged to adjacent files (either side-by-side or back-to-back) or anchored to the floor or wall.

▶ Page 147

Cabinet and door locks on 800 and 900 Series cabinets are keyed random. Consecutive or specific keying options are available. Master-keyed locks are also available.

▶ Page 218

Lock in case top of multi-zone cabinet secures all drawers.

Storage accessories are available for factory or field installation.

▶ Page 137

Exterior tackboards and slatwalls are available for field installation.

▶ Pages 146–147

Connections

Ganging hardware is included to link the cabinet to adjacent cabinets, either side-by-side or back-to-back, for stability. Cabinets can also be bolted to the floor or wall for stability.

Square edge

Bullnose edge

Tops are available for factory or field installation on multi-zone cabinets. Tops are available with two edge styles—square edge and bullnose edge. Square edge tops are factory or field installed. Bullnose edge tops are field installed only.

Tip: Tops are 1/16" wider than the cabinet on both sides, equaling 1/8"W. When individual tops are used side-by-side, cabinets do not fit together tightly.

Tip: Bullnose edge tops have a 1/2" overhang on the front edge of files and cabinets.

Tip: Vinyl square edge colors are defaults determined by the laminate color that is selected.

▶ See trim color defaults, page 236.

Common tops are available to connect cabinets to make a credenza.

Tip: A common top is recommended when two or more cabinets are used next to each other to prevent a gap between files.

Enclosed bases can be used with any style furniture. Leveling glides adjust up to 5/8" to install cabinets on uneven floors.

▶ Page 146

Anchor bracket attaches to floor and secures cabinet to floor in compliance with the California Office of Statewide Health Planning and Development (OSHPD) rules to reduce the risk of hazards during earthquakes. To comply, all cabinets which have the bottom of their top opening at 60"H or higher must use an anchor bracket.

Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent.

▶ Page 155

Overfile cabinets are separate components that are field installed on top of cabinets to provide space for additional files, ring binders, or miscellaneous storage. One- or two-shelf models are available. They are equipped with a full-height door pull and a shelf modifier that reduces the depth from legal-size to letter-size.

▶ Page 134

Wiring & Cabling

Enclosed base provides a space for storage of cords and cables under the cabinet. The front snaps off for access to the cords and cables.

Knockouts are located on the sides of the enclosed base for cable routing purposes.

800 and 900 Series

800 and 900 Series Multi-Zone Cabinets

with Roll-Out Worksurface

800 Series multi-zone cabinets with roll-out worksurface

serve as a modest, compact workstation. They include fixed shelves, roll-out worksurface, lateral file drawers, and lock. They complement 800 Series vertical files and 730 Series storage cabinets.

► Specifying, pages 94–95

900 Series multi-zone cabinets

serve as a modest, compact workstation. They include fixed shelves, roll-out worksurface, lateral file drawers, and lock. They complement Series 9000 and Elective Elements systems furniture, 900 Series vertical files, and 970 Series storage cabinets.

► Specifying, pages 96–97

Fixed shelf with sliding doors

provides space for files, ring binders, and miscellaneous storage.

Fixed shelf concealed by 15"H receding door provides space for files, ring binders, and miscellaneous storage.

Roll-out 1"H worksurface is 15¹⁵/₁₆"D and provides a practical worksurface at sitting height.

Shallow drawers are designed to store smaller items including roll film, cassettes, card trays, and miscellaneous personal items which can be stored flat.

Drawers are designed for filing letter-size, legal-size, and A-4 international-size documents.

Pulls on 800 Series

drawers and receding doors are rectangular and recessed. An Avenir-style pull is also available to complement Avenir systems furniture.

Label holder snaps into place in the 800 Series pulls. Labels 2³/₄"W x 1¹/₁₆"H are recommended.

Cabinet lock is standard. It secures all the drawers and doors in the cabinet.

Pulls on 900 Series drawers and receding doors are full width and integral.

Label holder fits inside the pull of 900 Series lateral files. Labels 2³/₄"W x 1¹/₁₆"H are recommended.

Drawers open their full depth, 17⁵/₈" extension, for total access to the contents.

Leveling glides adjust up to ⁵/₈" to install files on uneven floors.

Actual Dimensions

| | |
|----------------------|------------------------------------|
| Depth | 18" |
| Width | 30" or 36" |
| Height | 64 ¹¹ / ₁₆ " |
| Drawer height | 6" or 12" |
| Receding door height | 6", 9", 12", or 15" |
| Leveling glide range | ⁵ / ₈ " |

Product Details

800 and 900 Series multi-zone cabinets are available 30"W or 36"W and 64¹¹/₁₆"H.

Multi-zone cabinets have various lateral file drawers on the bottom and an opening with receding door at worksurface height level that exposes at roll-out worksurface; the cabinet is topped by two more enclosed storage spaces.

Roll-out worksurface is a flat, 1" surface covered with laminate only. This surface rests at the bottom of a 9"H opening of sitting worksurface height.

Drawers and shelves accommodate letter-, legal-, and A4 international-size filing. Drawers can have documents filed side-to-side or front-to-back. Shelves allow side-to-side filing only.

Drawer and shelf interiors are available to fulfill specific filing requirements. They are factory installed by ordering the appropriate option. 12"H drawers are standard with hanging file folder frames. They are also available for field installation.

Interiors include:

- Dividers (DV)
- Compressor (CW)
- Hanging file folder frames (HF)
- Rails (RW); available in drawers only

Hanging file frame is included in all 12"H drawers and roll-out shelves when they include dividers or compressors.

Exception: Drawers that are equipped with rails do not include a hanging file folder frame because they cannot be used with one another.

Tip: Hanging file folder frame is not needed to file legal-size documents side-to-side in drawers. Save the frame for future letter-size filing.

Pulls are located on the top of a drawer and at the bottom of a door.

800 Series pull

900 Series pull

Avenir pull used on Avenir products

Avenir-style pull used on 800 Series products

Avenir-style pulls are available on 800 Series to complement Avenir systems furniture.

Tip: The Avenir-style pull is NOT identical to the actual Avenir pull. It is flush and does not have the radius lip on the top edge of the pull, so it will allow the receding door to go back into the file.

Safety interlock system allows only one drawer or shelf to be opened at a time.

Counter-weight packages must be ordered separately and field installed in 2-, 3-, 4-, and 5-high cabinets that are not ganged to adjacent files (either side-by-side or back-to-back) or anchored to the floor or wall.

800 and 900 Series Combination Cabinets

800 Series combination cabinets are available with hinged doors, fixed shelves, lateral file drawers and two locks. They complement 800 Series vertical files and 730 Series storage cabinets.
 ▶ Specifying, page 102

900 Series combination cabinets are available with hinged doors, fixed shelves, lateral file drawers and two locks. They complement Series 9000 and Elective Elements systems furniture, 900 Series vertical files, and 970 Series storage cabinets.
 ▶ Specifying, page 104

Label holder snaps into place in the 800 Series pulls. Labels 2¾"W x 1⅛"H are recommended.

Pulls on 800 Series drawers are rectangular and recessed. An Avenir-style pull is also available to complement Avenir systems furniture.

Label holder fits inside the pull of 900 Series lateral files. Labels 2¾"W x 1⅛"H are recommended.

Leveling glides adjust up to ⅝" to install files on uneven floors.

Door lock is standard in the right-hand door. It secures both doors in the cabinet.

Cabinet lock is standard. It secures all the lateral drawers in the combination cabinet.

Integral pulls are standard on both 800 and 900 Series combination cabinet doors.

Shelves are fixed at 12"H increments to accommodate binders. Shelves are standard with three dividers.

Doors open beyond 90°

Drawers open their full depth, 17⅝" extension, for total access to the contents.

Pulls on 900 Series drawers are full width and integral.

Actual Dimensions

| | |
|----------------------|------------------|
| Depth | 18" |
| Width | 30", 36", or 42" |
| Height | 52⅜" or 64⅛" |
| Drawer height | 12" |
| Door height | 24" or 36" |
| Leveling glide range | ⅝" |

Product Details

800 and 900 Series combination cabinets are available in various widths and heights.

Two cabinet heights are available.

Combination cabinets are available with hinged doors and fixed shelves above, and lateral file drawers below.

Drawers and shelves accommodate letter-, legal-, and A4 international-size filing. Drawers can have documents filed side-to-side or front-to-back. Shelves allow side-to-side filing only.

Drawer and shelf interiors are available to fulfill specific filing requirements. They are factory installed by adding the appropriate suffix to the style number. They are also available for field installation.

Interiors include:

- Dividers (DV)
- Compressor (CW)
- Hanging file folder frames (HF)
- Rails (RW); available in drawers only

Tip: Your order is not complete until you add a suffix to the product style number to indicate the interior you want.

Exception: Lateral files with individual locking drawers and combination cabinet style numbers do NOT require an added suffix.

Hanging file frame is included in all 12"H drawers and roll-out shelves when they include dividers or compressors.

Exception: Drawers that are equipped with rails do not include a hanging file folder frame because they cannot be used with one another.

Tip: Hanging file folder frame is not needed to file legal-size documents side-to-side in drawers. Save the frame for future letter-size filing.

Pulls are located at the top of a lateral file drawer.

800 Series pull

900 Series pull

Avenir pull used on Avenir products

Avenir-style pull used on 800 Series products

Avenir-style pulls are available on 800 Series to complement Avenir systems furniture.

Tip: The Avenir-style pull is NOT identical to the actual Avenir pull. It is flush and does not have the radius lip on the top edge of the pull, so it will allow the receding door to go back into the file.

Safety interlock system allows only one drawer or shelf to be opened at a time.

Counter-weight package is not required.

Cabinet and door locks on 800 and 900 Series files and combination cabinets are standard keyed random. Consecutive or specific keying options are available. Master-keyed locks are also available.

▶ Page 218

Storage accessories are available for factory or field installation.

▶ Page 137

Exterior tackboards and slatwalls are available for field installation.

▶ Pages 146–147

Connections

Ganging hardware is included to link the cabinet to adjacent cabinets, either side-by-side or back-to-back, for stability. Cabinets can also be bolted to the floor or wall for stability.

Square edge

Bullnose edge

Tops are available for factory or field installation on combination cabinets. Tops are available with two edge styles—square edge and bullnose edge. Square edge tops are factory or field installed. Bullnose edge tops are field installed only.

Tip: Tops are 1/16" wider than the cabinet on both sides, equaling 1/8"W. When individual tops are used side-by-side, cabinets do not fit together tightly.

Tip: Bullnose edge tops have a 1/2" overhang on the front edge of files and cabinets.

Tip: Vinyl square edge colors are defaults determined by the laminate color that is selected.

▶ See trim color defaults, page 236.

Enclosed bases can be used with any style furniture. Leveling glides adjust up to 5/8" to install files on uneven floors.

▶ Page 146

Anchor bracket attaches to glide and secures cabinet to floor in compliance with the California Office of Statewide Health Planning and Development (OSHPD) rules to reduce the risk of hazards during earthquakes. To comply, all cabinets which have the bottom of their top opening at 60"H or higher must use an anchor bracket.

*Note: **Local seismic requirements vary.** Compliance with local code requirements is the responsibility of the customer or their authorized agent.*

► Page 155

Overfile cabinets are separate components that are field installed on top of combination cabinets to provide space for additional files, ring binders, or miscellaneous storage. One- or two-shelf models are available. They are equipped with a full-height door pull and a shelf modifier that reduces the depth from legal-size to letter-size.

► Page 134

Wiring & Cabling

Enclosed base provides a space for storage of cords and cables under the cabinet. The front snaps off for access to the cords and cables.

Knockouts are located on the sides of the enclosed base for cable routing purposes.

800 and 900 Series Vertical Files

800 Series vertical files

match 800 Series lateral files and combination cabinets, 800 Series personal cabinets, and 730 Series storage cabinets. They complement Avenir systems furniture.
 ▶ Specifying, page 112

900 Series vertical files

match 900 Series lateral files and combination cabinets, 900 Series personal cabinets, 970 Series storage cabinets, and Series 9000 systems furniture. They complement Elective Elements systems furniture.
 ▶ Specifying, page 114

800 Series drawer pulls

are rectangular and recessed.

Dual-action latch

releases the drawer by pushing a button located on either side of pull.

Cabinet lock is standard. It secures all the drawers in the file.

900 Series drawer pulls are full width and integral. A concealed touch latch is located in the middle of the pull.

Drawers open their full depth for total access to the contents.

Label holder fits inside the 800 and 900 Series pulls. Labels 2³/₄"W x 1¹/₁₆"H are recommended. Label holders stick to 900 pulls with double-face tape.

Product Details

Two file widths are available to accommodate either letter- or legal-size documents.

Four file heights are available—2-, 3-, 4-, or 5-high.

Two-high files are 30"D for use adjacent to desks with 30"D tops. All other files are 28⁹/₁₆"D.

Floor support kit is available for use under two-high files to increase the file height by ³/₈" so an overall file height of 29³/₄" (from 29³/₈"H) is achieved. The kit contains four brackets that are field installed only.

Drawer interiors are available to fulfill specific filing requirements. They are factory installed by adding the appropriate suffix to the style number. Interiors include:

- Straight-front compressor for letter-size file **CN**
- Straight-front compressor for legal-size file **CW**
- Hanging file folder frame for letter- or legal-size file **HF**
- Straight-front compressor and hanging file folder frame for letter-size file **CNHF**
- Straight-front compressor and hanging file folder frame for legal-size file **CWHF**

Tip: Your order is not complete if you don't specify an interior suffix.

Actual Dimensions

| | 800 Series | 900 Series |
|--------|---|---|
| Depth | 28 ⁹ / ₁₆ " or 30" | 28 ⁹ / ₁₆ " or 30" |
| Width | 14 ⁷ / ₈ " or 17 ⁷ / ₈ " | 14 ⁷ / ₈ " or 17 ⁷ / ₈ " |
| Height | 29 ³ / ₈ ", 41 ¹ / ₄ ", 52 ³ / ₈ ", or 58 ⁵ / ₈ " | 29 ³ / ₈ ", 41 ¹ / ₄ ", 52 ³ / ₈ ", or 59 ¹ / ₂ " |

Tip: To achieve 29³/₄"H files, order a field-installed floor support kit for use under 29³/₈"H files.

Straight-front compressors slide into position to prevent contents from falling down.

Hanging file folder frame is available for front-to-back filing. It can be used by itself or in conjunction with the compressor.

Rubber bumpers absorb the shock of closing drawers.

Full- and half-height drawers allow you to create a file that meets your specific storage needs. You can specify a factory buildup or install alternative drawers in the field. One full-height drawer or two half-height drawers are required per opening.
▶ How to specify buildup, page 110

Removal of drawers is possible in the field. Drawers have a handhold on the back for carrying purposes.
Tip: To avoid possible injury, remove the contents of the drawer before taking the drawer out of the file.

Cabinet lock on all 800 and 900 Series vertical files is keyed random. Consecutive and specific keying options are available. Master-keyed locks (XF series) are available also.
▶ Page 222

Individual drawer locks are available on 800 Series buildup files only in the front of one or more drawers. Individual drawer locks are keyed randomly in the FR series. Master-keyed locks (XF series) are also available.
Tip: Individual drawer locks are not available on 900 Series files.

Full-depth security shelves are included when individual drawer locks are specified. They are installed directly above each drawer to prevent access. Full-depth security shelves are not available for field installation.

Filing accessories, including card trays and hanging file folder frames, are available for field installation.
▶ Page 158

Square edge tops are available for factory installation on 29"H two-high buildup files only.

Shipping

800 and 900 files are normally shipped wrapped in heavy duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Buildup Options and Rules for Vertical Files

800 and 900 Series Cabinets

All locking cabinets are available in the following widths: 147³/₈" and 177³/₈"

| 800 Series exterior height | 800 Series interior openings | 900 Series exterior height | 900 Series interior openings |
|----------------------------------|------------------------------|----------------------------------|------------------------------|
| 29 ³ / ₈ " | 2 | 29 ³ / ₈ " | 2 |
| 41 ¹ / ₄ " | 3 | 41 ¹ / ₄ " | 3 |
| 52 ³ / ₈ " | 4 | 52 ³ / ₈ " | 4 |
| 58 ⁵ / ₈ " | 5 | 59 ¹ / ₂ " | 5 |

| | Drawer Accessories | | | Drawer Lock | | Paper Size | | Rules |
|---|--------------------|----|------|-------------|---------|------------|-------|-------|
| | C | HF | C/HF | Ind. Lock | No Lock | Letter | Legal | |
| Full-Height (File) Drawers 800 and 900 Series | ■ | ■ | ■ | □ | ■ | ■ | ■ | 1, 3 |
| Half-Height (File) Drawers 800 and 900 Series | • | • | • | □ | ■ | • | • | 2, 3 |

Legend

- = Not available
- = Available
- = Available with exceptions. 800 Series only.

Drawer accessories

- C** = Straight-front compressor
- HF** = Hanging file folder frame
- C/HF** = Combination of compressor and hanging file folder frame

Drawer lock

is available for one or more individual locking drawers.

Cabinet lock

is standard and restricts access to all drawers in the cabinet.

Explanation of Buildup Rules

Rule 1

One full-height (file) drawer **must be** specified per cabinet opening.

Rule 2

Two half-height (box) drawers **must be** specified per cabinet opening.

Rule 3

Specify the components that you want to fill the cabinet in order, from top (opening #1) to bottom (opening #2, #3, #4 or #5).

: **Buildups** allow you to
: create a file that meets your
: specific storage needs. To
: specify a buildup, follow
: these steps:

: **Step 1**

: **Specify an empty cabinet.**

- : ▶ Page 116 for 800 Series vertical file cabinets
- : ▶ Page 118 for 900 Series vertical file cabinets

: **Step 2**

: **Specify individual drawers**

- : in order from top to bottom of the cabinet.
- : Each opening must be filled with one full-height or two half-height drawers.
- : ▶ Page 120 for 800 Series drawers
- : ▶ Page 121 for 900 Series drawers

: For field-assembled buildups, drop the “**BLDUP**” suffix from the style number you are ordering.
: ▶ See specification pages for field-assembled price deductions.

800 Series Vertical Files

Tip: Your specification is not complete until you add a suffix to define the drawer interiors.

Tip: When you choose an optional drawer interior, your choice will apply to all the drawers in the cabinet.

Understanding and Specifying 800 and 900 Series Personal Cabinets

When ordered and installed in accordance with Steelcase specification and installation guidelines, these products meet applicable ANSI/BIFMA standards.

Tops and accessories are in a separate chapter.
▶ Page 137

| | |
|---|------------|
| 800 and 900 Series Personal Cabinets | 126 |
| 800 Series Personal Cabinets | 128 |
| 900 Series Personal Cabinets | 130 |

800 and 900 Series Personal Cabinets

800 Series personal cabinets provide secure, versatile storage for personal and work items. They complement Avenir systems furniture and coordinate with 800 Series lateral and vertical files and 730 Series storage cabinets.
▶ Specifying, page 128

900 Series personal cabinets provide secure, versatile storage for personal and work items. They complement Series 9000 systems furniture and coordinate with 900 Series lateral and vertical files and 970 Series storage cabinets.
▶ Specifying, page 130

Back and sides are finished so cabinet can be placed anywhere.

Lock is standard. Case lock secures all the drawers and receding door. Door lock secures door. Both locks are keyed the same.

Receding door in top position of 64¹¹/₁₆"H cabinet provides access to fixed shelf.

Binders will fit on fixed shelf.

Pulls on 900 Series drawers and doors are integral.

Box drawers at work-surface height are available to provide convenient storage of tools and personal items.

Label holder fits inside the pull of 900 Series drawers. Labels 2³/₄"W x 1¹/₁₆"H are recommended.

Leveling glides adjust up to ⁵/₈" to install cabinet on uneven floors.

Pulls on 800 Series drawers and receding doors are rectangular and recessed. They complement Avenir system furniture components.

Full-height drawer sides accommodate front-to-back filing of letter-size hanging file folders.

Label holder snaps into place in the 800 Series pulls. Labels 2³/₄"W x 1¹/₁₆"H are recommended.

Wardrobe space has a double coat hook or optional coat rod to accommodate garments.
Tip: Wardrobe space cannot be converted to shelves.

Drawers open their full depth for total access to the contents. Only front-to-back letter-size can be accommodated.

Product Details

800 and 900 Series personal cabinets can be ordered in many configurations.

Door available on left or right side of cabinet. Hinges are 3-way adjustable and doors open beyond 90°.
Tip: Right- or left-handing of door is factory installed and cannot be switched in the field.

Pull on both 800 and 900 Series personal cabinet doors is full-height and integral.

Box drawers are equipped with two movable partitions and will hold 3x5 and 4x6 letter-size card trays.

One pair of box drawers is available. When selected, they will be located in the second position from the bottom of the cabinet.

Actual Dimensions

| | |
|--|--|
| Depth | 18" |
| Width | 30" |
| Height | 52 ³ / ₈ " or 64 ¹¹ / ₁₆ " |
| File drawer height | 12 ¹ / ₈ " |
| <i>Exception: Drawer height of drawer below receding door is 11"</i> | |
| Receding door height | 13 ¹ / ₂ " |
| Leveling glide range | ⁵ / ₈ " |

Double coat hook is standard behind locker door. A coat rod can be ordered as an option.

File drawers open their full depth for total access to the contents. They have high sides that act as a hanging file folder frame.

Compressors are available in file drawers. Select appropriate style number and compressors will be included in all file drawers in cabinet.

5-High (64¹¹/₁₆" personal cabinet is standard with receding door and fixed shelf in top opening. Shelf accommodates one row of binders.

Pulls are located on the top of a drawer and in the middle of a receding door.

Avenir-style drawer pull

900 Series drawer pull

Avenir pull used on Avenir products

Avenir-style pull used on 800 Series products

Avenir-style pulls are standard on 800 Series personal cabinets to complement Avenir systems furniture.

Tip: The Avenir-style pull is NOT identical to the actual Avenir pull. It is flush and does not have the radius lip on the top edge of the pull, so it will allow the receding door to go back into the file.

Cabinet is standard with two locks. Lock in case controls drawers/receding door. Lock in door controls door.

Lock on all 800 and 900 Series personal cabinets is keyed random. Consecutive or specific keying options are available. Master-keyed locks are also available. ▶ Page 219

Safety interlock system allows only one drawer or shelf to be opened at a time.

Counter-weight package is not required for personal cabinets.

Connections

Ganging hardware is included to link the cabinet to adjacent components, either side by side or back to back, for stability. Cabinet can also be bolted to the floor or wall for stability.

Square edge

Bullnose edge

Tops are available for field installation on the cabinets. Tops are available with two edge styles—square edge and bullnose edge. Bullnose edge tops are field-installed only.

Tip: Tops are 1/16" wider than the file on both sides, equaling 1/8"W. When individual tops are used side by side, cabinets do not fit together tightly.

Tip: Bullnose edge tops have a 1/2" overhang along the front edge of cabinets.

Tip: Vinyl square edge colors are defaults determined by the laminate color that is selected.

▶ See trim color defaults, page 236.

Anchor bracket attaches to glide and secures cabinet to floor in compliance with the California Office of Statewide Health Planning and Development (OSHPD) rules to reduce the risk of hazards during earthquakes. To comply, all files which have the bottom of their top opening at 60"H or higher must use an anchor bracket.

Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent.

▶ Page 155

Overfile cabinets are separate components that are field installed on top of cabinets to provide space for additional files, ring binders, or miscellaneous storage. One- or two-shelf models are available. They are equipped with a full-height door pull and a shelf modifier that reduces the depth from legal-size to letter-size.

Understanding and Specifying 900 Series Overfile Cabinets

When ordered and installed in accordance with Steelcase specification and installation guidelines, these products meet applicable ANSI/BIFMA standards.

Tops and accessories are in a separate chapter.
▶ Page 137

900 Series Overfile Cabinets

134

900 Series Overfile Cabinets

136

900 Series Overfile Cabinets

for use with 100, 200, 800, 900, 730 and 970 Series Storage Products

900 Series overfile cabinets provide additional storage on top of 100, 200, 800, and 900 Series lateral files. Overfile cabinets can also be added to 800 and 900 Series combination cabinets and 730 and 970 Series storage cabinets to accommodate file folders, ring binders, and miscellaneous storage.
 ▶ Specifying, page 136

Adjustable shelf is included in 28½"H overfile cabinet. The shelf adjusts in 1" increments.

Full-height, integral door pulls complement 100 Series, 200 Series, 800 Series, and 900 Series lateral files and combination cabinets and 730 and 970 Series storage cabinets.

Lock is available. It secures both doors in the overfile cabinet.

Product Details

Two overfile cabinet styles are available—without doors or with steel, sliding doors.

Two heights are available. Models with one shelf have a fixed shelf on the bottom. Models with two shelves have a fixed shelf on the bottom and an adjustable shelf. The adjustable shelf adjusts at 1" increments.

Lock is keyed random. Consecutive or specific keying options are available. Master-keyed locks are also available.
 ▶ Page 220

Additional shelf is available for use in 28½"H models only.

Actual Dimensions

| | |
|--------|--|
| Depth | 18" |
| Width | 30", 36", or 42" |
| Height | 15 ¹³ / ₁₆ " or 28 ¹ / ₈ " |

Shelf-depth modifiers reduce the depth of the overfile shelf from legal-size to letter-size.

Storage accessories, including shelf dividers and additional shelf-depth modifiers, are available for field installation.

► Page 156

Connections

Overfile cabinets are field installed on top of lateral files. Overfile cabinets can be installed on top of 730 and 970 Series storage cabinets.

Square edge tops are available for factory installation on overfile cabinets.
Tip: Vinyl square edge colors are defaults determined by the laminate color that is selected.

► See trim color defaults, page 236.

Bullnose edge tops are available for field installation only.

Surface Materials

Overfile cabinet

Tops

for Use with 100, 200, 800, 900, 730, and 970 Series Products

Square Edge Tops

► Specifying, page 140

Product Details

Square edge tops are available for factory or field installation on file cabinets.

Connections

Tops are 1/16" wider than a file on both sides, equaling 1/8"W. When individual tops are used side-by-side, file cabinets do not fit together tightly.

Tops 60"W and wider are available to connect files to make a credenza. They are always field installed.

Surface Materials

- Top**
- Laminate
 - Accent laminate (option)
 - Open line laminate (option)
 - Wood
 - Customiz stain (option on wood)
 - Full-fill finish (option on wood)
 - Vinyl (PVC) side-edge
- Tip: Vinyl square edge colors are defaults determined by the laminate color selected.*

Actual Dimensions

| | |
|--------|---|
| Depth | 15 1/8", 18 1/8", or 36 1/4" |
| Width | 30 1/8", 36 1/8", 42 1/8", 60 3/16", 66 3/16", 72 3/16", 78 3/16", 84 3/16", 90 3/16", 96 3/16", or 108 3/16" |
| Height | 1 1/8" |

Bullnose Edge Tops

► Specifying, page 142

Product Details

Bullnose edge tops are available for field installation only.

Bullnose edge detail is available on the front edge only or on both the front and back edges. Bullnose edge tops have a 1/2" overhang on the front edge of files.

Connections

Tops are 1/16" wider than a file on both sides, equaling 1/8"W. When individual tops are used side-by-side, file cabinets do not fit together tightly.

Tops 60"W and wider are available to connect files to make a credenza. They are always field installed.

Surface Materials

- Top**
- Laminate
 - Accent laminate (option)
 - Open line laminate (option)
 - Vinyl (PVC) side-edge
- Tip: Vinyl square edge colors are defaults determined by the laminate color selected.*

Accessories

for 800 and 900 Series Lateral Files, Multi-Zone, Combination, and Personal Cabinets

Accessories for 800 and 900 Series Lateral Files, Multi-Zone, Combination, and Personal Cabinets

Dividers

Dividers for 12" and 15" openings

Dividers for 6" and 9" openings and overfiles

Dividers for 3" opening

► Specifying, page 148

Product Details

Divides space in 3"H, 6"H, 12"H, or 15"H roll-out shelves; 3"H, 6"H, 9"H, or 12"H drawers; or overfile cabinets to allow side-to-side filing of file folders in 2" increments.

Tip: Dividers are not available in 15"H drawers.

Tip: Dividers do not extend the full depth of a shelf or drawer.

Specifying

Factory installation in a lateral file is possible by adding the **DV** suffix to the standard file style number.

Must be ordered separately for field installation.

Shipped in carton of three.

Surface Materials

Divider

- Black only

Actual Dimensions

For 12"H and 15"H opening

Depth 11⁷/₈"

Width 1¹/₁₆"

Height 6¹/₄"

For 6"H and 9"H opening and overfiles

Depth 13¹/₂"

Width 1¹/₁₆"

Height 3⁵/₈"

For 3"H opening

Depth 11³/₄"

Width 1¹/₁₆"

Height 1¹/₂"

Compressors

► Specifying, page 148

Product Details

Compresses file folders that are being filed side-to-side in a drawer or roll-out shelf.

Handle allows compressor to move easily along the track.

Specifying

Factory installation is possible by adding the **CW** suffix to the lateral file style number.

Must be ordered separately for field installation.

Surface Materials

Compressor

- Black only

Actual Dimensions

Compressor

Depth 15⁵/₁₆"

Width 11"

Height 7¹/₂"

Track

Width 11¹⁵/₁₆"

Hanging File Folder Frames

For use in files received after May 5, 1997.

► Specifying, page 149

Tip: Files received prior to May 5, 1997 require a set of different hanging file folder frames.

► Specifying, page 149

Product Details

Suspends hanging file folders side-to-side in a 12"H or 15"H drawer or roll-out shelf.

Tip: For legal-size filing, hanging file folder frames are not needed in drawers because drawer edges support folders.

Specifying

Factory installation is possible by adding the **HF** suffix to the standard file style number.

Must be ordered separately for field installation.

Shipped in carton of one.

Surface Materials

Hanging file folder frame

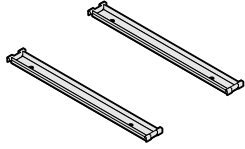

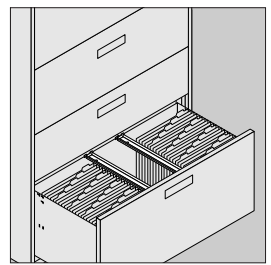

- Black only

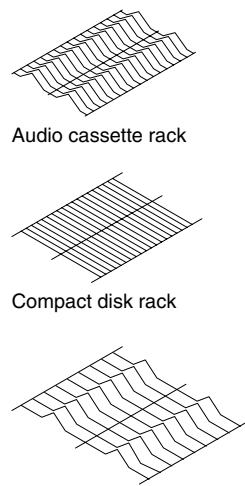

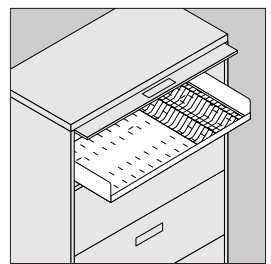

Actual Dimensions

Depth 1/4"

Width 27¹/₄", 33¹/₄", or 39¹/₂"

Height 1"

Card Trays

► Specifying, page 151

Product Details

Insert into drawers and shelves to provide storage for cards, cassettes, floppy disks, and data cartridges.

3"H roll-out shelf cannot accommodate card trays.

6"H roll-out shelf can accommodate all card trays.
Tip: 4 x 6 Card trays cannot be used in the top position of an opening if it is installed beneath a receding door, and the door is installed directly below a posting shelf or posting-shelf filler.

Tip: 3 x 5 card tray cannot be used beneath a posting shelf or posting-shelf filler.

Tip: When using a receding door with 5 x 8 card tray, the door should be at least 9"H.

Specifying

Must be ordered separately for field installation.

Surface Materials

*Cannot be used in 3"H or 6"H roll-out shelf or with a 3"H or 6"H receding door

D = Outside depth measurement includes hanging tabs.

W = Outside width

H = Outside height is measured to highest point on ends.

Enclosed Bases

► Specifying, page 152

Product Details

Front of enclosed base snaps out for cable routing access. Sides include cable-routing knockouts.

Specifying

Must be ordered separately for field installation.

Surface Materials

Enclosed base

- Paint
- Metallic paint (option)
- PerfectMatch paint (option)

Actual Dimensions

Enclosed Bases

| | |
|--------|---------------------------------|
| Depth | 18" |
| Width | 30"; 36"; 42" |
| Height | 8 ³ / ₄ " |

Hang-On Acoustical Panels

► Specifying, page 152

Product Details

Attaches to the back or side of a 64¹¹/₁₆"H cabinet. Metal brackets are used to attach acoustical panels to the back or sides of cabinets.

Panels can attach to either the back of a cabinet or the side of two cabinets used back-to-back.

Specifying

Must be ordered separately for field installation.

Surface Materials

Hang-on acoustical panel

- Vertical surface fabric

Actual Dimensions

| | |
|-------------------|----------------------------------|
| Depth (thickness) | ³ / ₄ " |
| Width | 18"; 30"; 36"; or 42" |
| Height | 62 ³ / ₈ " |

Tackboards

► Specifying, page 153

Product Details

Tackboards are available to attach to the back of storage unit to convert the area above the worksurface of a desk into a tackable surface. Tackboards attach with double-sided tape or adhesive.

Overfile tackboards are available to turn the back of an overfile into a tackable surface.

Tackboards are available to mount on the side of 18"D lateral file cabinet. Tackable surface in black only.

Surface Materials

Tackboard

- Vertical surface fabric on 30"W, 36"W, 42"W or 59¹/₂"W
- Tackable black surface on 18"W

Actual Dimensions

| | |
|-------------------|---|
| Depth (thickness) | ¹ / ₂ " or ³ / ₄ " |
| Width | 16", 30", 36", 42", or 59 ¹ / ₂ " |
| Height | 12", 15 ³ / ₁₆ ", 20 ¹ / ₂ ", 23 ³ / ₁₆ ", 24", 31 ⁵ / ₈ ", 36" or 36 ¹¹ / ₃₂ " |

Specifying

Must be ordered separately and installed in the field.

Slatwall

► Specifying, page 154

Product Details

Slatwalls are available to mount on the side of 18"D cabinets.

Specifying

Must be ordered separately for field installation.

Surface Materials

Slatwall panels
 • 8043 Clear Anodized Aluminum

Actual Dimensions

| | |
|-------------------|------------------|
| Depth (thickness) | 1/2" |
| Width | 16" |
| Height | 12", 24", or 36" |

Attachment Brackets

► Specifying, page 154

Product Details

Connects file to Series 9000 panel to enhance panel stability. Attaches to file with screws.

Connects file to Avenir panel to enhance panel stability. Attaches to file with screws.

Attaches to top and bottom of Avenir panel that is perpendicular to file that is the same height or taller than panel (excluding the top cap). Attaches to file with screws.

Specifying

Must be ordered separately for field installation.

Surface Materials

Bracket
 • Black paint only

Counter-Weight Packages

► Specifying, page 155

Product Details

Counter-weight packages must be ordered separately and field installed in 2-, 3-, 4-, and 5-high freestanding files that are not ganged either side-to-side or back-to-back to adjacent files or anchored to the floor or wall. Counter-weight requirements are different for standard files and buildup files.

Specifying

Must be ordered separately for field installation inside the cabinet.

Surface Materials

Counter-weight plates
 • Black only

Actual Dimensions

| | |
|--------|------------------|
| Depth | 3 1/8", 2 3/8" |
| Width | 25 1/2", 37 1/2" |
| Height | 18" |

Custom Size Tackboards

- If required size is not listed above, order must be free formed.
- Create style number based on above style number logic (list width first, then height). Example: 42"W x 70"H tackboard is 5484270.
- Square inches are rounded to the nearest 100 inches before pricing is calculated.
- Standard with vertical surface fabric price group 1. Vertical fabric options and upcharges will apply.
- Special mechanical fastening devices are required for oversize tackboards.

| | |
|-----------------------------|----------------------|
| Up to 400 square inches | \$72 minimum |
| 401 to 700 square inches | \$24 per 100 sq. in. |
| 701 square inches or larger | \$22 per 100 sq. in. |

Counter-Weight Packages

Tip: Order a counter-weight package if file is freestanding and not ganged to adjacent files or bolted to the floor or wall to prevent accidental tipping. Counter-weight packages are field installed only.

Tip: If counter-weight package is ordered, a fixed shelf cannot be specified in the bottom opening.

▶ See page 52 for buildup information.

Tip: There are different counter-weight requirements for build-up files than standard files. Use the appropriate style number that matches your installation.

Accessories

for 900 Series Overfile Cabinets

Extra Shelf for 28¹/₈"H Overfile Cabinets

► Specifying, page 157

Product Details

Extra shelf is available for use in 28¹/₈"H cabinets only.

Specifying

Must be ordered separately for field installation.

Surface Materials

- Extra shelf**
- Paint
 - Metallic paint (option)
 - PerfectMatch (option)

Actual Dimensions

| | |
|--------|---------------|
| Depth | 16" |
| Width | 28", 34", 40" |
| Height | 3/4" |

Dividers for Overfile Cabinets

Dividers for 6" and 9" openings and overfiles

► Specifying, page 157

Product Details

Dividers must be used with shelf-depth modifier.

Specifying

Must be ordered separately for field installation.

Shipped in carton of three.

Surface Materials

- Divider**
- Black only

Actual Dimensions

| | |

730 and 970 Series Storage Cabinets

730 Series cabinets
 provide secure, versatile storage for odd-size, hard-to-store items. They coordinate with 800 Series products. They also complement Avenir systems furniture.
 ▶ Specifying, page 166

970 Series cabinets
 provide secure, versatile storage for odd-size, hard-to-store items. They match 900 Series products and Series 9000 systems furniture. They complement FirstFile 200 Series products and Elective Elements systems furniture.
 ▶ Specifying, page 168

Pulls on 730 Series cabinets are rectangular and recessed.

Leveling glides adjust to install cabinets on uneven floors.

Door latches at top and bottom of both doors are magnetic.

Lock is standard. It secures both doors in the cabinet.

Pull on 970 Series cabinets is full-height and integral.

Double-action hinges are concealed.

Actual Dimensions

| | |
|----------------------|---|
| Depth | 18" or 24" |
| Width | 36" |
| Height | 41 ¹ / ₄ ", 52 ³ / ₈ ", 64 ¹¹ / ₁₆ ", or 80 ¹ / ₂ " |
| Leveling glide range | 5/8" |

Product Details

Three cabinet styles are available—storage cabinets, wardrobes, and combination storage and wardrobe cabinets.

Adjustable shelves are available in storage cabinets and combination cabinets. They adjust at 2" increments. Adjustable shelves are also available to convert a wardrobe to a storage cabinet in the field.

Coat rods are available in wardrobes and combination cabinets. Rods run front-to-back in 18"D cabinets without a full-width shelf and from side-to-side in 18"D cabinets with a full-width shelf and all 24"D cabinets.

Coat rod, adjustable shelves, and center hook shelves can be reconfigured in the field.

Overfile cabinets are separate components that are field installed on top of storage cabinets. One or two shelf models are available. They are equipped with a full-height drawer pull and a shelf-depth modifier that reduces the depth from legal-size to letter-size. ▶Page 134

730 series pull

Avenir-style pull is available to complement Avenir systems furniture. *Tip: The Avenir-style pull is not identical to the actual Avenir pull. It is flush and does not have the radius lip on the top edge of the pull.*

970 series pull

Lock is available with random, consecutive, or specific keying options. Master-keyed lock is also available. ▶Page 221

Storage accessories, including shelves, coat rods, printout (EDP) hanger bracket, and adjustable center hook, are available for field installation. ▶Page 180

Exterior tackboards and slatwalls are available for field installation. ▶Page 181

Connections

Anchor bracket attaches to glide and secures cabinet to floor in compliance with the California Office of State-wide Health Planning and Development (OSHPD) rules to reduce the risk of hazards during earthquakes. To comply, all cabinets 64 $\frac{9}{16}$ "H or higher must use an anchor bracket.

Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent. ▶Page 185

Cabinets may be ganged for added stability. Knock-outs for holes are located in the cabinet top.

Square edge

Bullnose edge

Tops are available for field installation on the cabinets. Tops are available with two edge styles—square edge and bullnose edge. Bullnose edge tops are field-installed only.

Tip: Tops are 1/16" wider than the file on both sides, equaling 1/8"W. When individual tops are used side by side, cabinets do not fit together tightly.

Tip: Bullnose edge tops have a 1/2" overhang along the front edge of cabinets.

Tip: Vinyl square edge colors are defaults determined by the laminate color that is selected.

▶ See trim color defaults, page 236.

Accessories

for 730 and 970 Series Storage Cabinets and Bookcases

Storage Cabinet Shelves

► Specifying, page 182

Product Details

Full-width shelves can be added to 36"W wardrobe cabinets in the field.

Half-width shelves can be added to combination cabinets in the field.

Specifying

Must be ordered separately and installed in the field.

Surface Materials

- Shelf**
- Paint
 - Metallic paint (option)
 - PerfectMatch paint (option)

Actual Dimensions

See *Product Details*, at left.

Bookcase Shelves

► Specifying, page 183

Product Details

Extra shelves can be added to bookcases in the field.

Specifying

Must be ordered separately and installed in the field.

Surface Materials

- Shelf**
- Paint
 - Metallic paint (option)
 - PerfectMatch paint (option)

Actual Dimensions

| | |
|--------|------------------------------|
| Depth | 13 3/8" |
| Width | 29 5/8", 35 5/8", or 41 5/8" |
| Height | 1" (thickness) |

Coat Rod Attachments

► Specifying, page 183

Product Details

For use in 64 11/16"H and 80 1/2"H cabinets to convert them into wardrobes or for use in combination cabinets.

Coat rods run front-to-back in 18"D cabinets without a full-width shelf and from side-to-side in 18"D cabinets with a full-width shelf and all 24"D cabinets.

Attachment hardware is included.

Specifying

Must be ordered separately for field installation in cabinets that don't already have coat rods.

Surface Materials

- Coat rod**
- Black only

Actual Dimensions

| | | |
|----------|---------|--|
| Length | 16 1/2" | Front-to-back in 18"D cabinet |
| | 20 3/4" | Side-to-side in combination cabinet |
| | 35 5/8" | Side-to-side in 24"D x 36"W cabinet and 18"D x 36"W cabinet with full-width shelf. |
| Diameter | 3/4" | |

Tackboards

► Specifying, page 184

Product Details

Tackboards are available to attach to the back of cabinet to convert the area above the worksurface of a desk into a tackable surface. Tackboards attach with double-sided tape or adhesive.

Overfile tackboards are available to turn the back of an overfile into a tackable surface.

Tackboards are available to mount on the side of 18"D cabinet. Tackable surface in black only.

Specifying

Must be ordered separately and installed in the field.

Surface Materials

Tackboard

- Vertical surface fabric on 30"W, 36"W, 42"W or 59½"W
- Tackable black surface on 18"W

Actual Dimensions

Depth ½" or ¾"
(thickness)

Width 16", 30", 36", 42",
or 59½"

Universal Bin

Bins, supported by frames, provide overhead storage in the work space. Bin shelf, top, and back are steel. Side panels are ABS. Door is sheet molded compound or wood. Bins ship fully assembled.

► Specifying, pages 190–191

Safety catches lock overhead storage unit to bracket and frame to prevent accidental removal.

Basic attachment brackets are used to mount bins on panels with vertical slot patterns. Bracket positions bin up to 12" off-module.

Off-module brackets are optional. Bracket can be used to mount bins completely off-module on Segment, Pathways Technology Wall, and Enhanced Off-Module Montage with horizontal slot patterned panels.

Locks are standard on the bin. Lock is centered on the underside of the case and angled forward to provide a clean aesthetic, yet it is easy to access.

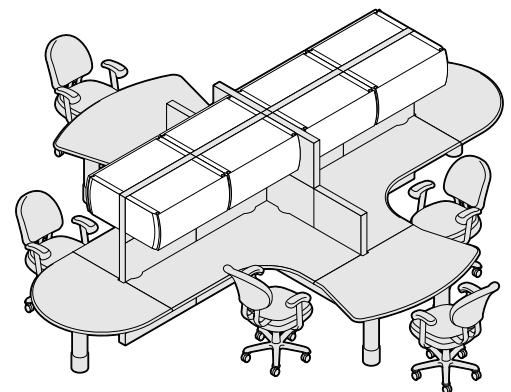

Easy open AND easy close doors open over the top of the bin.

Bin doors rest on top of the case when bin is open to provide more storage space inside.

Actual Dimensions

Overhead storage bin

| | |
|-----------------------|---------------------------------|
| Depth | 16½" |
| Inside depth | 13¾" |
| Width | 30", 36", 42", 45", or 48" |
| Inside width | 27¼", 33¼", 39¼", 42¼", or 45¼" |
| Height | 15" |
| Height with door open | 23" |
| Inside height | 13¾" |

Product Details

Lock is available with random, consecutive, or specific keying options. Master-keyed lock is available. Lock is angled forward so it provides a clean aesthetic, yet it is easy to access.

Bin has access holes in bottom of bin for wire management.

Dividers hold books and other materials upright in bin.

Top of bin aligns with the top of the frame.

Back of bin is closed.

Bin accepts A4 binders.

Connections

Bins come standard with basic attachment bracket. Off-module and upmount brackets are optional. ▶ See Universal Bracket Application Rules, page 196.

Underline task light's 3/4" profile makes it the ideal task lighting solution for Universal Bins and Shelves. Underline task light includes the lamp, ballast, and 9' cord. It virtually disappears when mounted beneath these storage solutions. Underline mounts flush to the bottom of Universal Bins and Shelves using screws. Task light is field-installed and pre-drilled holes are provided. Spiral 9' cord option is designed to drop straight down from fixture. This option is an aesthetic alternative to the traditional cord. Housing is 24"W and 3/4"H and is available in dark champagne, pewter, and black.

For New York City, tool-free clips are required for flush mount applications within New York. Clips allow removal of Underline without use of a tool.

Surface Materials

Bins

- Paint

Side panel

- Plastic color molded to match bin color if textured paint is specified for bin
- Painted plastic to match bin color if metallic paint is specified for bin

Fronts

- Paint
- Wood (optional)

Locks

- Polished Chrome
- Ember Chrome (optional)

Basic attachment brackets

- Black

Full off-module bracket coverplates

- Painted to match bin

Universal Bin

- Door: wood
- Basic attachment bracket: black only
- Lock, keyed random: 9201 Polished Chrome

Required to Specify

- Style number with appropriate bracket suffix:
 - ANS** = Answer
 - AVR** = Avenir
 - EE** = Elective Elements
 - KIC** = Kick
 - MON** = Montage
 - S9** = Series 9000
 - TEC** = Technology Wall*
 - NON** = NO BASIC BRACKET (see bracket options below)
 - Paint color number for storage bin
 - Wood color number for door
 - Options, if selected (see below)
- ▶ See *Surface Materials*, page 233.

Tip: Only the door is wood. Cabinet is painted metal and end panels are ABS.

Tip: Basic attachment bracket allows only 12" off-module configurations on panels with vertical attachment. Optional brackets allow complete off-module configurations on panels with horizontal slot patterns. Specify with suffix "**NON**" and choose a full off-module bracket option.

Tip: Bin is upmountable on Technology Wall, Answer, and Kick panels. Specify with suffix "**NON**" and choose the upmount bracket option.

Universal L-Shelf

L-shelf, supported by frames, provide overhead storage in the work space. L-shelf and back are steel. L-shelf is partially field-assembled.

► Specifying, page 194

Safety catches lock overhead storage unit to bracket and frame to prevent accidental removal.

Basic attachment brackets are used to mount bins on panels with vertical slot patterns. Bracket positions bin up to 12" off-module.

Off-module brackets are optional. Bracket can be used to mount shelves completely off-module on Segment, Pathways Technology Wall, and Enhanced Off-Module Montage with horizontal slot patterned panels.

Spacers on shelf attach back to shelf.

Endcaps are molded plastic.

5/16" diameter rods provide an open aesthetic to the sides of the L-Shelf.

Actual Dimensions

| | Shelf |
|-----------------|---|
| Depth | 14 ¹ / ₄ " |
| Width | 29 ⁷ / ₈ ", 35 ⁷ / ₈ ", 41 ⁷ / ₈ ", 45 ⁷ / ₈ ", or 47 ⁷ / ₈ " |
| Inside width | 25 ³ / ₄ ", 31 ³ / ₄ ", 37 ³ / ₄ ", 41 ³ / ₄ ", or 43 ³ / ₄ " |
| Height | 15" |
| Shelf thickness | 5/8" |

Product Details

Spacers on shelf provide 1/4" gap between back and shelf. Back screws to shelf through spacers.
▶ Page 192

Dividers hold books and other materials upright on shelf.

Top of L-shelf aligns with the top of the frame.

Connections

L-shelves come standard with basic attachment bracket. Off-module and upmount brackets are optional.
▶ See bracket rules, page 196.

Underline task light's 3/4" profile makes it the ideal task lighting solution for Universal Bins and Shelves. Underline task light includes the lamp, ballast, and 9' cord. It virtually disappears when mounted beneath these storage solutions. Underline mounts flush to the bottom of Universal Bins and Shelves using screws. Task light is field-installed and pre-drilled holes are provided. Spiral 9' cord option is designed to drop straight down from fixture. This option is an aesthetic alternative to the traditional cord. Housing is 24"W and 3/4"H and is available in dark champagne, pewter, and black.

For New York City, tool-free clips are required for flush mount applications within New York. Clips allow removal of Underline without use of a tool.

Universal Bracket Application Rules

Universal Bracket Application Matrix

| | Basic | Full Off-module | Upmount |
|----------------------------------|-------|-----------------|---------|
| Answer | X | | X |
| Avenir | X | | |
| Elective Elements | X | | |
| Enhanced Off-Module Montage | X | X | |
| Kick | X | | X |
| Montage | X | | |
| Pathways Technology Wall Segment | X | X | X |
| Series 9000 | X | | |

Basic Attachment Brackets

Basic attachment brackets are used to mount bins and shelves to panels with vertical slot patterns. Answer, Avenir, Elective Elements, Kick, Series 9000, Montage, and Technology Wall panels can support basic attachment brackets. Basic attachment brackets push bins and shelves $\frac{1}{4}$ " from frame.

Basic attachment brackets install in panel seams and allow bins and shelves to be installed a maximum of 12" off-module.

Width of overhead bin or shelf must match the width of the panel or panels that it is attached to or a maximum of 12" wider.

Full Off-module Brackets

Full off-module brackets, optional, accommodate off-module installations of bins and shelves on panels with horizontal slot patterns. Enhanced Off-Module Montage frames, and Technology Wall and Segment panels can support full off-module brackets. Full off-module brackets push bins and shelves $\frac{1}{2}$ " from frame.

Coverplates are included with brackets for use on Enhanced Off-Module Montage frames and Segment panels. Coverplate extends below the bin or shelf to conceal the bracket.

Enhanced Off-Module Montage frames have horizontal slot patterns and must be specified for full off-module Montage configurations.

Functional rail for use with Technology Wall panels must be specified separately. Technology Wall panels will be available Fall 2002.

Upmount Brackets

Upmounted bin and shelf height is 66"H when installed on 54"H panels.

Upmount bin or shelf width must match the width of the panel or panels that it attaches to. Upmounted bins and shelves cannot be supported off-module.

Upmount brackets, optional, attach bins and shelves to the top of 54"H panels. Answer, Kick, and Technology Wall panels can support upmount brackets.
Tip: Stationary shelf cannot hang from an upmounted bin or shelf.

Accessories

for Universal Bins and Shelves

Stationary Shelf

Product Details

Stationary shelf hangs 5½" from the bottom of the bin or L-shelf. Specify the same width as corresponding bin or L-shelf. Shelf is steel with molded endcaps.

Huddleboard Marker Boards and Photo Album Boards

Huddleboard marker boards provide a lightweight, portable writing surface to facilitate communication in individual offices, public areas, and collaborative team spaces. The double-sided Huddleboards are available in two styles: one with white marker board surface on both sides, and another with white marker board surface on one side and a photo album display surface on the other.

► Specifying, page 204

White marker board surface accommodates dry-erase markers.

Photo album features a 3M repositionable adhesive used on Post-It® products, which provides an area for media to be displayed.

Clear, flexible cover protects adhesive surface and attached media. It has a non-glare, dry-erase writing surface to allow the user to write notes on top of displayed items without permanently altering them. The cover contains an easy-grip tab and magnetic top and bottom corners to secure flexible cover.

Ghost alignment dot grid provides a subtle alignment aid for writing and diagramming.

Hanger hooks alone or with an accessory allow marker boards to suspend from a wide range of furniture components. Hanger hooks can be attached to any corner edge of the board.

Actual Dimensions

| | |
|--------|----------------|
| Depth | 3/4" |
| Width | 23 1/2" or 32" |
| Height | 32" or 42" |

Product Details

Landscape

Portrait

Hanger hooks can be removed and repositioned on any side of a marker board or photo album board for use in a landscape or portrait orientation. Hooks are non-handed.

Self-stick adhesive surface allows items to attach without the use of tacks or tape. The adhesive surface is not intended to be written on, and ink cannot be removed.

Marker board surface and clear flexible cover on the photo album can be cleaned with any marker board cleaner. Use the same cleaner to remove ink from edges and corners.

Huddleboard marker boards and photo album boards are not magnetic and do not accommodate magnets.

Connections

Conjunction wall-mounted worktool rail accommodates marker boards and photo album boards that can slide to any position. Boards can also be suspended from a Conjunction beam.

Poster rack attaches to corner applications and provides a convenient display for up to five marker boards or photo album boards. Boards can be supported in either portrait or landscape orientation with minor poster rack modifications. ▶ Page 210

Freestanding tray can stand on work surfaces, datum shelves, and other storage components. The tray allows marker boards and photo album boards to be propped up against vertical surfaces such as panels and walls. All sizes of Huddleboard marker boards and photo album boards can be accommodated in portrait and landscape orientations. ▶ Page 212

Channels in the tray can support up to three boards. Empty channels provide a good place to store markers and erasers, or tools can be stored under the freestanding tray.

Panel/structural-mounted tray provides a ledge to support marker boards and photo album boards that are propped up against a vertical surface such as panels and walls. All sizes of Huddleboard marker boards and photo album boards can be accommodated in portrait and landscape orientations. Trays are available in three different widths: 36", 48", and 72". ▶ Page 212

Channels in the panel/structural-mounted tray can support up to three boards. Empty channels provide a good place to store markers and erasers.

Hardware to connect tray to structural walls (dry-wall) is provided. Optional hardware is available to connect to Answer, Avenir, and Series 9000 panels, and Pathways Quotient and Segment walls. Tools are required for installation. ▶ Page 212

Accessories

Ledge grabbers have a non-slip rubber surface that anchors the marker boards or photo album boards to Answer, Avenir, and Series 9000 panels and Pathways Segment walls. They can also be used to hang a board on storage components and other horizontal surfaces with depth of at least 1". ▶ Page 213

Flip chart pegs attach to the frame of the board and support large, flip chart tablets. ▶ Page 213

Marker grip can be used on the edge of the board to hold dry-erase markers. ▶ Page 213

Labels allow marker boards to be color coded for quick identification by individual, group, or topic. Three colors are available. Labels have writable surface, repositionable adhesive, and are intended for use on marker board frame only. ▶ Page 214

Mobile and Folding Easels

Easels provide rigid support for marker or photo album boards during work sessions and can be used to display boards during presentations. Both easels are lightweight, portable, and ideal for open plan environments.

► Specifying, pages 208–209

Adjustable display board supports boards while in use. Three height positions are available—one sitting and two standing.

Utility tray can support two boards and provides storage for dry-erase markers and erasers.

Casters allow the easel to be moved easily to wherever it is needed. Optional locking casters are available on two legs.

Grips on display board hold marker boards in place.

Storage compartment with side access provides an area to store and transport up to 10 large boards.

Leg prop locks to ensure stability. Leg prop slides to allow rear leg to fold for transport and storage.

Tray can support two boards and provides storage for dry-erase markers and erasers.

Product Details

Marker or photo album boards can be supported in portrait or landscape orientations on both the mobile and folding easels.

Mobile easel with portrait orientation

Mobile easel with landscape orientation

Folding easel with portrait orientation

Folding easel with landscape orientation

Folding easel's light-weight structure collapses to a thin 4" package.

Accessory package is included when you specify a mobile easel with a set of five marker boards. Package contains useful components:

- pair of ledge grabbers
- one marker grip
- pair of flip chart pegs
- one sheet of labels

Connections

Portrait

Landscape

Slot pattern on the back of the display board connects to structural supports on the mobile easel frame. These slots allow the board to be supported at three different heights for sitting or standing users.

Huddleboard

Poster Rack

Poster rack supports multiple marker boards and photo album boards in a small space. **For corner applications only**, it installs on vertical surfaces such as walls and panels and can accommodate all board sizes in portrait or landscape orientations.
▶ Specifying, page 211

Adjustable-height poster rack has a capacity for five boards and provides stability when boards are in use.

Hanger hooks have an opening that attaches to the top of the poster rack and allows marker boards and photo album boards to pivot.

Huddleboard marker boards provide a lightweight, double-sided writing surface. These are identical to the marker boards used with the Huddleboard easels.
▶ Page 204

Marker boards can be lifted out of a rack to change their sequence or to use them elsewhere.

Pegs in the lower support insert into pivot holes in the marker board and photo album board frame and support boards in the rack.

Product Details

Poster rack allows boards to pivot slightly more than 90°.

Corner installations are the only applications for poster racks. They are ideal for both individual offices and collaborative team space.

Poster rack installations with Pathways Segment and Quotient walls require poster rack to be oriented vertically on 84"H wall when large marker boards are used. All other Segment and Quotient wall applications less than 84"H allow only small boards to be used in a horizontal orientation.

Connections

Poster rack connects to the corner of structural walls (dry-wall) with the mounting hardware provided. Optional hardware is available to connect to Answer, Avenir, and Series 9000 panels, and Pathways Quotient and Segment walls. Tools are required for installation.

Surface Materials

Poster rack

Safe Use of Storage Products

Lateral Files

Stability of files is assured if they are properly installed and loaded. To avoid personal injury, each file is standard with an interlock system that allows only one drawer or roll-out shelf to be opened at a time. In addition, there are steps that must be followed to prevent the tipping of a file.

Gang file with adjacent files, either side-by-side or back-to-back, or bolt file to the floor or wall for stability. Ganging hardware is included with each file.

Order a counter-weight package if a 2-, 3-, 4-, or 5-high freestanding file is not ganged to adjacent files or bolted to the floor or wall.

Exception: Combination cabinets do not require a counter-weight package.

Counter-weight packages prevent accidental tipping when an upper drawer or shelf is opened. They are ordered separately and field installed.

Tip: Counter-weight packages cannot be installed in lateral files with a fixed shelf—no doors or drawers—in the bottom position. These files must be ganged or the bottom spring must be replaced with a drawer or roll-out shelf.

Load files starting with the bottom drawers or shelves. The upper drawers or shelves should be loaded last. Load files with the heaviest contents at the bottom.

Follow the instructions that are shipped with the files to ensure that they are properly installed to provide safe performance.

Complete instructions for the safe installation and use of lateral files are taped to the inside of the file. Instructions include information about:

- Leveling files
- Ganging files together
- Counter-balancing files
- Removing and reinstalling drawers and shelves
- Loading drawers and shelves in the correct sequence
- Moving files

A temporary, peel-off caution label is affixed to the front of the top drawer or door exterior.

A permanent caution label is affixed to the left side of the top drawer or shelf body and is visible when the drawer or shelf is opened.

Safety information for storage cabinets, bookcases, and over-files is included with the installation instructions that are shipped with the products.

Vertical Files

Stability of files is assured if they are properly installed and loaded. To avoid personal injury, each file is standard with thumb latch that prevents drawers from opening accidentally. In addition, there are steps that must be followed to prevent the tipping of a file.

1700 Series vertical files have thumb latch that prevents drawers from opening accidentally. Vertical files do not have an interlock system.

800 and 900 Series vertical files do not have an inter-lock system. Concealed thumb latches, located in the 800 and 900 Series pulls, prevent drawers from opening accidentally. Only one drawer should be opened at a time to avoid tipping of the file.

Gang file with adjacent files, either side-by-side or back-to-back, or bolt file to the floor or wall for stability. Ganging hardware is included with each file.

Load files starting with the bottom drawers. The upper drawers should be loaded last. Load files with the heaviest contents at the bottom.

A temporary, peel-off caution label is affixed to the front of the top drawer exterior.

A permanent caution label is affixed to the left side of the top drawer body and is visible when the drawer is opened.

Lateral and vertical file features and options provide security for the entire file and/or individual drawers. The central locking mechanism secures the entire cabinet and can be used with individual locking drawers. When specifying individual drawers with locks on lateral or vertical files, a full-depth shelf is installed above the drawer to maximize security and prevent access to a locked drawer from the drawer space above.

Central locking mechanism is standard and secures all the drawers in the lateral or vertical file cabinet.

Individual drawer locks are available for lateral and vertical file applications where you want to restrict drawer access to keyholders. You can specify individual drawer locks on cabinets with or without a central locking mechanism. Central locking mechanism is not affected if individual drawer locks are added.

Full-depth security shelves, provided with individual locking lateral or vertical file drawers, are factory installed and serve as a security barrier by blocking access to drawers underneath them even when the drawer above is removed.

Openings for vertical files are numbered from top to bottom and correspond to the openings for full-height drawers. Two half-height drawers can fit in one opening.

Half-height locking drawers in vertical file cabinets positioned in the lower portion of the opening are also protected by a full-depth shelf security barrier.

1700 Series Vertical File shown

Resources and Surface Materials

Factory-Installed Locks and Keying Options: Lateral Files

All locks are designated with key numbers. You can specify a key number; however, if you don't specify a key number, the locks in your order will be keyed random (with the exception of lateral files with individual locking drawers).

Two types of locks are available—the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Standard Keying

Lateral file and combination cabinet locks are standard keyed random.

Keying Options

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Key specific means that you can specify any key number from FR305 to FR454. This option can be used to key all the furniture units in a workstation or department the same.

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454.

Master key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Master key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from XF1001 to XF1150. All XF locks can be opened with a master key.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Master key specific means that you can specify any key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

| Options | U.S. | Canada | Required to Specify |
|-------------------------------|------------|------------|--|
| Key specific | No cost | | Select key number from FR305–FR454. |
| Key consecutive | No cost | | Specify <i>key consecutive</i> and must select beginning key number from FR305–FR454. |
| Master key random | +\$20 each | +\$28 each | Specify <i>master key random</i> . |
| Master key specific | +\$20 each | +\$28 each | Specify key number from XF1001–XF1150. |
| Master key consecutive | +\$20 each | +\$28 each | Specify <i>master key consecutive</i> and must select beginning key number from XF1001–XF1150. |

Tip: You can change factory-installed lock cylinders in the field by using the appropriate lock tool.

Factory-Installed Locks and Keying Options: Personal Cabinets

All locks are designated with key numbers. You can specify a key number; however, if you don't specify a key number, the locks in your order will be keyed random.

Two types of locks are available—the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Standard Keying

Personal cabinet locks are standard keyed random.

Keying Options

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Master key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from XF1001 to XF1150. All XF locks can be opened with a master key.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Key specific means that you can specify any key number from FR305 to FR454. This option can be used to key all the furniture units in a workstation or department the same.

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

Master key specific means that you can specify any key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454.

Master key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the sequence repeats. You must select a beginning key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Tip: You can change factory-installed lock cylinders in the field by using the appropriate lock tool.

Factory-Installed Locks and Keying Options: 730 and 970 Series Storage Cabinets

All locks are designated with key numbers. You can specify a key number; however, if you don't specify a key number, the locks in your order will be keyed random.

Two types of locks are available—the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Standard Keying

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454. Unless you specify otherwise, the factory will assign keyed random.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Tip: You can change factory-installed lock cylinders in the field by using the appropriate lock tool.

Keying Options

Master key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from XF1001 to XF1150. All XF locks can be opened with a master key. *Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.*

Key specific means that you can specify any key number from FR305 to FR454. This option can be used to key all the furniture units in a workstation or department the same. *Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.*

Master key specific means that you can specify any key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key. *Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.*

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454.

Master key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

| Options | U.S. | Canada | Required to Specify |
|-------------------------------|------------|------------|--|
| Key specific | No cost | | Select key number from FR305–FR454. |
| Key consecutive | No cost | | Specify <i>key consecutive</i> and must select beginning key number from FR305–FR454. |
| Master key random | +\$20 each | +\$28 each | Specify <i>master key random</i> . |
| Master key specific | +\$20 each | +\$28 each | Specify key number from XF1001–XF1150. |
| Master key consecutive | +\$20 each | +\$28 each | Specify <i>master key consecutive</i> and must select beginning key number from XF1001–XF1150. |

Factory-Installed Locks and Keying Options: Vertical Files

All locks are designated with key numbers. You can specify a key number; however, if you don't specify a key number, the locks in your order will be keyed random.

Locks from the FR and XF series can be removed from vertical files in the field and replaced into other vertical file locks from the FR and XF series.

Front-removable lock cylinders from the FR and XF series can be installed or removed in the field with a special tool. These lock cylinders will only fit vertical file locks. This feature allows you to switch lock cylinders after the vertical files are installed to eliminate the need to keep track of each vertical file's lock number during installation.

Standard Keying

Central lock controls all drawers in a vertical file. Individual drawer locks (not available in 900 series vertical files) are keyed random in the FR series. Master-keyed (XF series) locks are also available.

Key random means that the locks will be assigned arbitrarily at the factory with key numbers from FR305 to FR454.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Tip: You can change factory-installed lock cylinders in the field by using the appropriate lock tool.

Keying Options

Master key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from XF1001 to XF1150. All XF locks can be opened with a master key.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.

Master key specific means that you can specify any key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

Key specific means that you can specify any key number from FR305 to FR454. This option can be used to key all the furniture units in a workstation or department the same.

Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454.

Master key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from XF1001 to XF1150. All the locks in the XF series can be opened with a master key.

Field-Installed Locks and Keying Options:

800 and 900 Series Lateral Files, Personal Cabinets, FirstFile Lateral Files, and 730 and 970 Series Storage Cabinets

Field-Installed Locks and Keying Options: 800 and 900 Series Lateral Files, Personal Cabinets, FirstFile Lateral Files, and 730 and 970 Series Storage Cabinets

Front-removable lock cylinders can be installed or removed in the field with a special tool. This feature allows you to field install lock cylinders after the furniture is installed to eliminate the need to keep track of each furniture unit's lock number during installation.
Tip: On combination cabinets, only case lock is available field installed (not door lock).

Step 1

Order furniture with locks, but specify "plug" instead of indicating a key number. The furniture will be shipped with a plastic shipping plug in place of the lock cylinder. Only products with factory-installed lock mechanisms can accept lock cylinders in the field.

Tip: For 800/900 Series lateral files and personal cabinets, be certain to specify a lock color number (9201 Polished Chrome or 9250 Ember Chrome) for the lock face ring.

Tip: On lateral files with individual locking drawers, "plug" is the default—it does not need to be specified.

Step 2

Order enough lock cylinders to fill each lock location that you have specified as "plug". You must also order a lock tool.

Tip: Lock tools are reusable. You don't need to order additional lock tools with every furniture order.

Lock cylinders and the installation tool will be shipped separately so that you can install the locks when you are ready.

To specify lock cylinders, list the total number of lock cylinders

that you want with the appropriate style number. If you are specifying key numbers, list the breakdown of the quantity of each key number.

► For an overview of the keying options that are available, see previous page.

An example of how your order should look is shown below:

Example:

10 LOCK9201FR FR320
 5 LOCK9201FR FR350
 15 LOCK9201XF XF1100

 1 877102002SR master lock tool

Lock Cylinders

Tip: A lock tool must be ordered to field install lock cylinders.

Tip: For replacement lock cylinders, refer to Service Parts.

Tip: Ember Chrome lock cylinder is only available with 800 and 900 Series lateral files and personal cabinets.

Standard Includes

- Lock cylinder: 9201 Polished Chrome or 9250 Ember Chrome
- Two keys

Required to Specify

- 1 Style number
- 2 Specific key number from FR series (FR305–FR454) or XF series (XF1001–XF1150) and designate quantity per key number **or** beginning key number for consecutive keying from FR series (FR305–FR454) or XF series (XF1001–XF1150)

Tip: Binder dimensions vary greatly with model and manufacturer. Check the dimensions of the specific binders you want to store to be sure they will fit.

Typical dimension ranges:
 Depth 10" to 12½"
 Width ½" to 4"
 Height 11" to 12"

Where to Store

12"H lateral file drawers or roll-out shelves

FirstFile 100 and 200 Series lateral files

| 47 ⁷ / ₈ "W shelf | 14" | 43 ³ / ₄ " | 15" |

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Surface Materials Reference Manual

This publication provides:

- An explanation of the surface materials program
 - “Available on” matrices
 - Vertical surface fabric and seating upholstery selection listing
 - Pricing for surface materials
 - Technical data for surface materials
 - Surface material care and cleaning instructions
- Form number S1359*

Surface Materials Finishes Binder

- includes:
- Surface Materials Reference Manual
 - A complete set of swatch cards for hard surfaces

Surface Materials Vertical Surface Fabric Binder

- includes:
- A complete set of swatch cards for vertical surface fabric

Surface Materials Seating Upholstery Binder

- includes:
- DesignTex Graded-In Catalog
 - A complete set of swatch cards for seating upholstery

Surface Materials Tool Box provides 3" x 3" samples of the following surface materials:

- Vertical surface fabric
 - Seating upholstery
 - Wood veneer
 - Paint
 - Laminate
- Form number S8150*

Paint

Applies to:

- 800 and 900 Series Storage Products
- FirstFile 100 and 200 Series
- 1700 Series
- 730 and 970 Series

Price Group 1

Textured Paint

- 7207 Black
- 7225 Sand (Vanadium)
- 7236 Fog
- 7237 Slate
- 7238 Fieldstone
- 7239 Midnight

Price Group 2

Metallic Paint

- 4750 Champagne
- 4751 Bronze
- 4752 Steel
- 4788 Gold Dust
- 4798 Sterling
- 4799 Platinum

Price Group 3

Accent Palette

Please see the Accent Paint swatchcard in the *Surface Materials Finishes Binder* for a complete list of these colorful paints.

PerfectMatch II paint

PerfectMatch II paint is a service that allows you to create your own paint color through the Customiz program. Refer to the *Surface Materials Reference Manual* for more information about this program.

Laminate

Applies to:

- 800 and 900 Series tops
- FirstFile 100 and 200 tops
- 1700 Series vertical file top
- 800 and 900 Series vertical file top

Laminate Color Choices

- 2412 Natural Cherry
- 2421 Medium Cherry
- 2511 Winter on Maple
- 2631 Medium Oak
- 2711 Natural Walnut
- 2722 Cream
- 2729 White Sand
- 2730 Arctic White
- 2746 Black
- 2759 Warm White
- 2771 Medium Mahogany on Walnut

- 2810 Dawn
- 2811 Mist
- 2817 Sierra Speckle
- 2818 Bramble Speckle
- 2819 Viola Speckle
- 2820 Coffee Speckle
- 2821 Black & White Speckle
- 2822 Woodrose Speckle
- 2823 Driftwood Speckle
- 2824 Smoke Speckle
- 2825 Vanadium Speckle
- 2850 Vanadium Fiber
- 2851 Rhyme Fiber
- 2852 Tungsten Fiber
- 2853 Cristine Fiber
- 2854 Vellum Fiber
- 2855 Folio Fiber
- 2856 Leaf Fiber
- 2857 Stream Fiber
- 2858 Cork Fiber
- 2859 Novell Fiber
- 2860 Granite Fiber
- 2870 Blonde Bronze Patina
- 2871 Blackened Bronze Patina
- 2872 Silver Plate Patina
- 2873 Instant Iron Patina
- 2874 Enlightened Grotto Patina
- 2875 Platinum Plus Patina

Accent Laminate

Accent laminates are available with an upcharge of \$60 U.S. and \$83 Canadian per worksurface, door, or laminate tile.

Please see the Accent Laminate swatchcard within the *Steelcase Finishes Binder* for a complete listing of these colorful laminates.

For additional information, refer to the *Steelcase Surface Materials Reference Manual* (S1359).

Open Line Laminate

This service allows you to order non-standard laminates at an additional processing fee upcharge of \$60 U.S. or \$83 Canadian per worksurface plus the cost of the laminate.

Edge color for open line laminate must be determined by the dealer and customer before orders can be entered.

For additional information, refer to the *Steelcase Surface Materials Reference Manual* (S1359).

Wood

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be arranged periodically to ensure even aging of wood surfaces.

Veneer

Veneers are flat cut and are matched for proper balance and consistency.

Applies to:

- 800 and 900 Series tops
- FirstFile 100 and 200 tops

Open Pore Finish Choices

- 3412 Natural Cherry
- 3424 Medium Cherry
- 3562 Linseed on Maple
- 3572 Amber on Maple
- 3582 Winter on Maple
- 3592 Blonde on Maple
- 3632 Medium Oak
- 3642 Natural Oak
- 3712 Natural Walnut
- 3722 Dark Mahogany on Walnut
- 3742 Autumn Walnut
- 3772 Medium Mahogany on Walnut
- 3792 Black Walnut

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look and it is smooth to the touch. This finish is available on the wood worksurface or top only.

Full-Fill Color Choices

- 3414 Natural Cherry
- 3425 Medium Cherry
- 3534 Winter on Maple
- 3544 Blonde on Maple
- 3564 Linseed on Maple
- 3574 Amber on Maple
- 3634 Medium Oak
- 3644 Natural Oak
- 3714 Natural Walnut
- 3724 Dark Mahogany on Walnut
- 3744 Autumn Walnut
- 3774 Medium Mahogany on Walnut
- 3794 Black Walnut

Customiz stain is a service that allows you to create your own stain colors on standard veneers. Customiz stain color is available on all product lines that offer wood veneer.

A one-time formulation fee of \$400 U.S. and \$550 Canadian per color, per customer processing fee will apply. The fee covers the cost of formulating the Customiz finish and applies regardless of whether or not an order for a product is placed. Please refer to “Customiz Stain” option price column in your specification guide for the unit upcharge.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by special engineering. Customiz stain on custom veneers take 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Plated Metal

Applies to:

- Lock
- 800 Series pulls
- Posting shelf pull
- 730 Series pull
- Universal Bins and Shelves

Chrome Choices

- 9200 Satin Chrome
- 9201 Polished Chrome
- 9250 Ember Chrome (lock only)

Vertical Surface Fabric

Applies to:

- 800 and 900 Series Lateral File Hang-on Acoustical Panels and Tackboards

Vertical Surface Fabric Choices

Classics Collection

Surface materials in the Classics Collection are timeless. These materials should be available for a minimum of 10 years from the date the material is introduced into the Classics Collection. The Classics Collection includes the following fabrics in Price Groups 1 through 3:

Price Group 1

Abacus

- P122 Entasis
- P123 Portico
- P124 Opus
- P125 Cusp

Options Collection

Surface materials in the Options Collection are available on select Steelcase brand seating and systems products. These materials should be available for a minimum of 3 years from the date the material is introduced into the Options Collection.

Options Collection fabrics and upholsteries are now even easier to order. Specify individual finish codes following the same process as Classics Collection fabrics and upholsteries.

The Options Collection includes the following fabrics in Price Groups 2 and 3:

Price Group 2

Bracken

- P356 Silver
- P357 Almond
- P358 Rice
- P359 Taupe
- P360 Nutmeg
- P361 Lupine
- P362 Violet
- P363 Lichen
- P364 Spearmint
- P365 Sky

Solitaire

- P343 Spearmint
- P344 Rice
- P345 Taupe
- P346 Pewter
- P347 Nutmeg
- P348 Chamois
- P349 Camel
- P350 Mist
- P351 Lichen
- P352 Willow
- P353 Silver
- P354 Sky
- P355 Violet

Price Group 3

Lotto

- P310 Pewter
- P311 Almond
- P312 Nutmeg
- P313 Plum
- P314 Lichen
- P315 Sky
- P316 Spearmint

Pick-Up Sticks

- P320 Bone
- P321 Cloud
- P322 Almond
- P323 Pewter
- P324 Nutmeg
- P325 Chamois
- P326 Camel
- P327 Lichen
- P328 Spearmint
- P329 Sky

DesignTex Graded-In Program

DesignTex fabrics are graded into Steelcase Price Groups 2 through 10.

Orders using this program are easier than COM specifications because the pricing and yardage are calculated for you. For additional information and fabric samples, please contact DesignTex at 1.800.221.1540.

Price Group COM (Customer's Own Material)

Fabric Approval and Yardage

To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:

- Visit www.steelcase.com
- Click on "Tools & Insights"
- Select "Customer's Own Material"

You can find the same information on the in2 site.

Follow these steps:

- Visit www.in2.steelcase.com
- Click on "Sales/Design Team"
- Select "Surface Materials"
- Select "Customer's Own Material"

For additional information regarding Customer's Own Material, call 1.888.STEELCASE.

Trim Color Defaults

for Laminate Tops

Vinyl (PVC) edge trim color of tops that are added to files is determined by the laminate color you select for the top. The edge color is a default and cannot be specified.

All laminates, except woodgrain laminates, will have solid color PVC edging.

Woodgrain laminates will have woodgrain PVC edges and the grain of the edges will be horizontal.

PVC square edge trim is applied to all four sides of laminate tops.

Laminate bullnose edge trim is applied only to the sides (left and right) of laminate tops.

| Laminate Color | Default PVC Color |
|---------------------------------------|---------------------------------------|
| 2412 Natural Cherry | 2412 Natural Cherry |
| 2421 Medium Cherry | 2421 Medium Cherry |
