Top 10 Reasons Why

Hitachi EverFlex

Hitachi EverFlex is designed for your changing business to optimize the value of your data, improve IT agility, and enhance protection for your data infrastructure.

1. **Ultimate Choice and Flexibility.**
   EverFlex provides "Ever Flexible" choice to maximize value with service levels that conform to the characteristics of your IT systems. It is simple to procure, allowing you to easily match acquisition choices and services to fit every budget situation.

2. **Increased Elasticity and Future Proof.**
   With capacity on demand, EverFlex helps reduce risk by eliminating waste and disruption. It aligns costs with actual usage, providing greater elasticity for your IT infrastructure including futureproofing options.

3. **Partner Prized.**
   Hitachi EverFlex is completely embeddable within partner business offerings to grow your revenue wherever you are in your go to market journey as an IaaS provider. Whether you choose a little or a lot of service to include, Hitachi Vantara's will be the most flexible relationship you have with any vendor.

4. **Guaranteed SLOs/SLAs.**
   EverFlex helps you scale your data management and IT infrastructure cost-effectively. It delivers outcomes and uninterrupted service, optional 24/7 operational support and guaranteed service level agreements (SLAs).

5. **Interoperability and Observability.**
   EverFlex offers expanded interoperability, observability and automation with existing systems, enhancing your TCO. It does this through EverFlex Control, the Heterogeneous Management Framework and Common Control Plane for the EverFlex portfolio.

6. **Let's you Focus on More Important IT Objectives.**
   As your business grows, so will your IT needs. EverFlex Managed Services allow you to concentrate on core IT business objectives while experts handle your day-to-day infrastructure operations.

7. **Streamlined IT Operations.**
   Leveraging Hitachi EverFlex streamlines your IT operations, enhances performance, and drives optimization.

8. **Predictable and Budget-Friendly.**
   EverFlex services provide dedicated end-to-end solution support at a predictable and budget-friendly cost, addressing business growth, reduction risk, IT spend management, maximizing ROI, and providing better planning.

9. **Comprehensive Service Catalog.**
   With modular services and solutions deployed in your own data center, hosted by a partner or co-located for easy alignment to your requirements for security, governance and performance.

10. **Hitachi White Glove Treatment.**
    Global reach and support. Benefit from Hitachi's extensive global services, partner ecosystem presence and support network, providing reliable assistance and resources wherever you are.
